Minor Construction Renovations
Maintenance Facility
141 Willow Ave
Little Compton, Rhode Island

ADDENDUM NO. 1

April 23, 2012

Delete the Project Specification and replace with the following:

1. Remove and dispose of thirteen (13) wood windows, modify openings as required including new framing with pressure treated wood and Aztec PVC material; furnish and install nine (9) new double hung vinyl windows and one (1) sliding window (low E-glass with argon) with rain guard in these masonry/wood openings.
    a. Two side window openings shall be closed and finished with vinyl siding.
2. Remove and dispose of existing exterior door; furnish and install new exterior metal door and metal frame with new lock set keyed to match existing building entrance.
3. Cover all existing soffit with new vinyl soffit panels and aluminum coilstock on fascia boards. Vertical soffit shall be installed along the front of the building.
4. Furnish and install new 6 inch commercial aluminum gutters and downspouts along the front and back of the building. Downspouts shall be diverted away from the building entrance to eliminate icing conditions.
5. Wrap all garage door frames with Aztec PVC materials.
6. Remove and replace existing flood light above building entrance. Existing emergency light shall remain.
7. Install 1/2" insulation board to the entire area over the existing wood siding and closed window areas, insulation to be well nailed. Install all required vinyl trim pieces (starter strip, inside and outside corners, "J" channels and undersill trim. Cover all the new insulation board with white double 4" vinyl siding.
8. Paint all exposed Aztec PVC trim with white durable exterior paint.
9. Clean and remove all construction related debris from site.

END OF ADDENDUM.
