The Spread sheet does not request installation or have a line for labor.

Answer – The equipment does not require installation.

2. Audio equipment is currently still experiencing delays in shipping. We would work with our vendors-
but the June 30 deadline may be tricky. Is that Timeline Flexible?

Answer – Equipment must be received by June 30th, for fiscal reasons.

Answer – The length of the DB25 should be 5 feet.

Vendor#2

Answer – Please see bid, everything required is listed
