ADDENDUM # 1

RFQ #7457835
Title: CISCO Networking Products, Installation & Maintenance - CCRI

Vendor Submitted Questions :

1). The bid was well documented so the only question we had is whether the installation portion of the optical networking hardware will be going out to bid? Or will the state install themselves?

2). Quick question on the bid for the Cisco gear: It mentions in the title that there is installation involved, but there is no item line in the pricing sheet for installation. Is there in fact install services needed or is it just the equipment?

ANSWER: (Applies to question #1 & #2).
We would like vendor to program and configure the equipment to support a VPLS WAN and 10G backbone on all four campuses. In addition equipment must be programmed to integrate with all existing networking components. The physical installation into racks will be done by CCRI.

Interested parties should monitor this website, on a regular basis, for any additional information that may be posted.

Gary P. Mosca
