The Keating MIRACLEAN® Griddle is designed to provide maximum performance with many benefits to the operator. The mirror surface is achieved in a special eight step process. Insulated stainless steel electric elements are mounted every 12" to ensure performance and recovery allowing the operator to use zone cooking for different products.

Saves on energy costs
Documented energy savings of 32% by Pacific Gas & Electric means dollar savings of up to $400 per year in energy costs on a 36" model. The MIRACLEAN® surface also reduces radiated heat loss to less than 10% of a conventional steel plate griddle. By keeping heat on the surface and out of the kitchen, the MIRACLEAN® Griddle reduces air conditioning demands and gives the chef a cooler cooking environment.

Reduces flavor transfer
The smooth MIRACLEAN® surface prevents food particles from being trapped as they are in steel plate griddles. The surface virtually eliminates flavor transfer.

Saves 44% in clean up
A documented study by the University of Illinois General Engineering department confirmed what has long been know by MIRACLEAN® operators - cleaning the MIRACLEAN saves time! 44% savings means less labor cost and high productivity. Cleaning a 36" MIRACLEAN versus a conventional steel plate model 3x daily would mean savings of $2,600 over the life of the unit. Cleaning the surface takes 3 easy steps:

1. scrape with the Keating scraper
2. wash with a Keating palmetto brush and water
3. polish with Keating Klenzer and a damp cloth

No more griddle bricks, grill screens or harsh chemicals needed, and reseasoning the plate is not necessary.

Accurate temperature control
MIRACLEAN® Griddles feature zoned temperature control to ensure temperature accuracy in cooking. The MIRACLEAN surface allows the operator to cook at lower temperatures to control the degree of carmelization and product shrinkage.
