- Lounge Areas
- Conference Rooms
- Faculty Offices
- Staff Offices
- Student Offices

B. Any interpretation, correction or change to the specification will be made by addendum to this bid as documented by the Architect, and issued by the University of Rhode Island. Oral interpretations will not be binding unless confirmed in writing.
C. University of Rhode Island is tax exempt.

D. There will be no prevailing wage requirements for this project.

E. Shipping, delivery, and installation costs must be integrated into the overall unit pricing cost of the product(s) as indicated by the supplied Furniture Pricing Spreadsheet. Selection of an installation company is subject to approval by the University of Rhode Island (refer to part 2.4 item D.).

2.2 Establishing Qualified Substitution “Or Equal” Products.

A. The University has established a “Basis of Design” for the furniture products to be used on this project. For firms requesting substitution of “Or Equal” products other than those specified, requests as an “Or Equal” product must be submitted by March 16, 2012 at 4:00 PM to the University of RI Purchasing Department, 581 Plains Road, Kingston RI, 02881. Bidders are advised that only one submission per furniture item will be allowed. Failure to follow the instructions contained herein will eliminate the products from consideration. To establish an “Or Equal” product, the furniture will be required to be evaluated and approved following the guidelines outlined below. The substitution shall maintain the level of quality and continuity with the building finishes.

B. The submitting Vendor must clearly address each of the following items below in their submission of “Or Equal” Products. Failure to clearly address these items could result in disqualification of the product item from consideration. If the line items below are not clearly and appropriately addressed by the Vendor/ Furniture Manufacturer, the submitted “Or Equal” product will not be considered.

1. Submit a line by line comparison of the substituted “Or Equal” product clearly addressing each line item set in the Basis of Design description on the furniture specification sheet that is being submitted on for “Or Equal” approval. The comparison shall also provide the following:
   a. Submit all product data, clearly showing a line by line comparison illustrating where the product is in fact an “equal” product.
   b. Include photographic documentation that clearly depicts the product and shows that it does not vary from the style and aesthetics set by the basis of design.
   c. Any and all deviations from the furniture specifications must be attached in a format similar to the furniture specification sheets.
   d. The burden of proof on substituted products as an “Or Equal” is placed upon the furniture Vendor/ Manufacturer making the submission. It will be up to the sole discretion of the University of Rhode Island and the Architect to determine if the product complies with the project requirements. Failure to clearly delineate the required “Or Equal” information as indicated above could result in disqualification of the product item from consideration.
   e. If the product is deemed an “Equal”, And if deemed necessary by the University, the Vendor/ Furniture Manufacturer shall be prepared to submit a physical sample and/ or mock-up of the substituted product for review and approval.

2. Mock-up: If deemed necessary by the University, provide a furniture mock-up (in a location to be determined on campus by the University) of the substituted “Or Equal”
product(s) for further evaluation. The mock-up is to show that the substitution does not vary from the set style and criteria called for by the documents.

a. The furniture specifications and drawings indicate the minimum quality and standards expected for the project. The furniture can be enhanced further if so desired by the vendor to exceed the project requirements. Any enhancements provided in a mock-up are to be included in the written documentation provided by the bidder and are to be included in the bidder’s base bid.

b. It is the responsibility of the Furniture Vendor to install the furniture mock-ups in a complete and operational manner. All parts and pieces should be in place and in working order by the specified mock-up completion date. The mock-up is to be evaluated on the “evaluation criteria” indicated above. The “Or Equal” mockup, at a minimum, must address all line items described by the basis of design furniture specification sheet(s) for the submitted product(s). The overall installation of the product(s) will also be evaluated, so care and thought should be given by the Vendor to the overall product appearance and finish installation. Failure to provide a complete mock up will detract from the overall weight given to the product(s) evaluation and could eliminate the product(s) from further consideration.

c. Where requested, the Vendor’s/ Furniture Manufacturer’s will be given until April 6, 2012 to coordinate with the University and complete the installation of their mock-up(s) for evaluation. The University will determine a location on Campus for the installation of the mock-ups. All costs for such work are to be borne by the Vendor.

d. All packaging materials from the furniture mock-up installations are to be removed from the site and disposed of by the Vendor in a legal manner.

e. The furniture mock-ups are to remain on site for a (2) week time period after which the furniture Vendor will be responsible for coordinating the removal of all furniture and equipment from their installed mock-up. All costs for such work are to be borne by the Vendor.

f. The University will not be responsible for any damages to the installed mock-up furniture installed on site for evaluation.

g. As part of the mock-up installation process on-site, insurance certificates will be required meeting the University of Rhode Island standard requirements indicated in Supplemental General Conditions of this project manual. A certificate of insurance identifying the insurer and limits must be provided to the University prior to the commencement of the requested on-site mock-ups.

3. Upon final review of all Substitution “Or Equal” submissions, the University will issue an addendum to this bid documenting all proposed substitution requests and stating whether those items were accepted or rejected, and the reason for rejection.

2.3 Criteria for Award

A. The Vendor/ Furniture Manufacturer’s qualifications must show their ability to meet the project requirements identified in this bid.

B. The University has established a “Basis of Design” for the furniture products to be used on this project. These products and their criteria are indicated in the furniture specification sheets directly following this specification section. Substitutions of “Or Equal” products will be considered on this project; however, they need to first be accepted as an “Or Equal” through the process indicated by section 2.2 Establishing Qualified Substitution “Or Equal” Products. Failure to first receive this approval first will result in a disqualification of the bid in which the product section/grouping is present in.
C. The University of Rhode Island reserves the right to accept or to reject any and all proposals based on a Vendor’s/Furniture Manufacturer’s ability to provide and install products in a timely manner, and provide continuity in finishes, including color, wood species and other criteria that maintains the quality and craftsmanship expected for this project.
