SPECIFICATIONS FOR MOTOR VEHICLE INSPECTION STICKERS

QUANTITY: 40,000

STICKER SIZE: 3" X 3-3/4" USEABLE. Pressure sensitive adhesive with TH VOID that is presently furnished. Printed front and back to design supplied by the M.V. Safety and Emission Control Division.

FACE OF STICKER: COLOR RED with black printing. Back to be black on silver background, stock quality suitable to accept typing or writing with ball point pen or pencil. Padded size in books 3" x 4".

Receipt 4" padded in book alternating with sticker, (**STICKER FIRST**) - but not removable, stock quality 20# bond suitable for typing, ball point pen or pencil, printed black ink on front and back. Back side of receipt shall be assembled in such a manner so that when the receipt is flipped to expose the back side, it will appear so that the space provided for 'NOTES' will be nearest the binding part of the book.

Books to be made of padded stock with a jute (white) cover stapled at top and bound with imitation cloth.

Books to have 10 sets each of sticker and receipts numbered consecutively alike. Number to start I-0001- thru I-40000. No skips or errors acceptable. No overages or shortages will be accepted. Numbering Roman type 3/16" in height on face of sticker and face of receipt. The cover of each book is to be numbered with starting sticker number of each book.

Packaging – 100 books of 10 sets per carton AND BOOKS PACKED IN SEQUENTIAL ORDER. Each carton shall indicate contents.

"NO MORE THAN 5,000 STICKERS PER CASE" OUTSIDE SHIPPING BOX SHALL HAVE NO PRINTING THAT INDICATES INSPECTION STICKERS.

Department will furnish details of all printing. Sample of finished product shall be supplied for testing and approval to Mario J. Faria, Chief, Motor Vehicle Safety and Emission Control Division, 325 Melrose Street, Providence, RI 02907.

VENDOR MUST ASSURE INSIDE DELIVERY OR ORDER WILL NOT BE ACCEPTED.

All inspection certificates shall have built into them security features which will safeguard the State against counterfeiting. This shall be accomplished by incorporating into the design an "ease to recognize" feature and an iridescence security feature in each sticker. This will enable a genuine sticker to be readily determined from a counterfeit by viewing the inspection certificate from the outside of the vehicle. These visual identifiable features are non-destructive verification tests of authenticity.

The inspection certificates shall contain other anti-counterfeit security features known only to authorized personnel, which will make counterfeiting extremely difficult.

There shall also be incorporated in each certificate a security feature which will result in the mutilation of sticker if an attempt is made to illegally transfer the decal from one windshield to another. This shall be accomplished by the word "VOID" appearing prominently both in the sticker and on the windshield from which it was removed.

DELIVERY BY OCTOBER 31, 2007

SPECIFICATIONS FOR ASSORTED MONTHLY INSERTS

JANUARY	10,000
APRIL	10,000
JUNE	10,000
OCTOBER	5,000
NOVEMBER	5,000

SIZE: approximately 1-3/8" x 1-3/8". Department of Administration will furnish details of printing.

The insert numbers shall be printed in black with a series of spaces throughout the number.

The twelve calendar months shall be printed alongside the individual numbers correlating (for example: the month of August with the number 8 and the month of July with the number 7) and so on through the 12 calendar months.

This information must be printed in a backwards manner so that when the insert is applied to the inspection sticker, the visible number and monthly indication will appear in a normal manner.

The numbers shall be printed on a clear mylar material with adhesive on one side so that when the number is affixed to the inspection sticker, it becomes a complete product and the adhesive surface is exposed for contact on the windshield of motor vehicle.

The adhesive surface must have some protective covering so that they will not stick to each other, but yet are easily removed so that the individual numbers may be affixed to the sticker normally one at a time without the use of any tools.

The insert numbers shall be printed in strips of 5 numbers to each strip and packaged in individual groupings separating the 12 different numbers.

The vendor must assure inside delivery to the Motor Vehicle Safety and Emission Control Division, 325 Melrose Street, Providence, RI 02907.

SPECIFICATIONS FOR MOTORCYCLE, TRAILER AND LIVESTOCK TRAILER INSPECTION REPORTS:

QUANTITY: 10,000 MOTORCYCLE inspection reports
10,000 TRAILER inspection reports
1,000 LIVESTOCK TRAILER inspection reports
SIZE: 3-1/2" X 5" useable

MOTORCYCLE: reports to be numbered **IM-00001 THRU IM-10,000**
Approximately 1/4" in height. No skips or errors acceptable.

TRAILER: reports to be number **IT-00001 – thru IT-10,000**
Approximately 1/4" in height No skips or errors acceptable.

LIVESTOCK TRAILER: reports to be numbered **ILT-0001 thru ILT-1,000**
Approximately 1/4" in height No skips or errors acceptable.

Reports to be printed in stock quality #20 bond suitable for typing or ball point pen. Printing in black ink on face only and padded in books of 10 reports in each book.

Books to be staples at top and covered with imitation cloth or suitable material.

COVER OF FRONT to be of approximately 80 lb. Tag manila printed in BLACK on face only.

BACK to be of cardboard weight so that it will not bend when a rubber band is placed around it.

Each book face cover shall be numbered with at least the starting number of the contents of the book.

Complete books shall be packaged with no more than 1,000 per box, in numerical order in a single row. Each carton to be numbered with starting and ending numbers of contents.

Department will furnish details of printing on cover and format of printing and text on inspection report.
