END OF DOCUMENT

SPECIFICATION STANDARDS**1.1 SECTION INCLUDES**

- A. Materials.
- B. Fabrication.
- C. Quality Assurance.
- D. Warranty.

1.2 MATERIALS

- A. Sign Frame
 - a. Aluminum Extrusions: ASTM B 221, alloy and temper recommended by aluminum producer and finisher for type of use and finish indicated, and with at least the strength and durability properties of Alloy 6063-T5.
 - b. Paint: Matthews Paint System or approved Equal. Provide pre-coat, acrylic polyurethane coat and U.V. protected clear coat.
 - c. Color as identified in the drawings
 - d. Refer to drawings and details for sizes, profiles, etc.
- B. Face Panel
 - a. Product: Dibond 3mm
 - b. Color: White finish
 - c. Description: Composite panel is comprised of two strong sheets of 0.012" aluminum bonded to a thermoplastic core pre-painted with a polyester finish that is 3 mm thick.
- C. Hardware
 - a. Provide theft-proof screws and lag bolts as indicated in the drawing documents for each sign.
- D. Packaging of Signs
 - a. Provide proper packaging around each sign for protection of sign for Owner pick-up, stacking, and delivery to site location.

1.3 FABRICATION

- A. General: Provide Manufacturer's standard signs of configurations indicated.
 - a. Welded Connections: Comply with AWS standards for recommended practices in shop welding. Provide welds behind finished surfaces without distortion or discoloration of exposed side. Clean exposed welded surfaces of welding flux and dress exposed and contact surfaces.
 - b. Mill joints to tight, hairline fit. Form joints exposed to weather to exclude water penetration.
 - c. Preassemble signs in the shop to greatest extent possible. Disassemble signs only as necessary for shipping and handling limitations. Clearly mark units for reassembly and installation, in location not exposed to view after assembly.
 - d. Conceal fasteners if possible; otherwise, locate fasteners where they will be inconspicuous.

1.4 QUALITY ASSURANCE

- A. Installer Qualifications: Fabricator of Products
- B. Fabricator Qualifications: Shop that employs skilled workers who custom-fabricate products similar to those required for this Project and whose products have a record of successful in-service performance
- C. Source Limitations for Signs: obtain each sign type indicated from one source.

1.5 WARRANTY

- a. Special Warranty: Manufacturer's standard form in which manufacturer agrees to repair or replace components of signs that fail in materials or workmanship within specified warranty period.
 - a. Failures include, but are not limited to, the following:
 - i. Deterioration of metal and polymer finishes beyond normal weathering.
 - ii. Deterioration of embedded graphic image colors and sign lamination
 - b. Warranty Period: Five years from date of installation
 - c. Ten (10) year warranty on paint finish.
