RI DEM LAW ENFORCEMENT VEHICLES RFQ 7449765

RIDEM is providing the mobile data terminals, (no mounts, setup, configuration, or installation) and the police radios(no setup, configuration, or installation).

Bidders may select the subcontractors for the lighting, sirens, and consoles, but RIDEM requires that the configuration and installation of its police radios and mobile data terminals be done by the companies who have the expertise in ensuring this equipment is installed correctly, configured properly, and tested to DEM standards prior to delivery of the patrol vehicles

RIDEM is requiring that mobile data terminal vendor DMY,LLC and police radio installer CYBER COMMUNICATIONS be utilized to install, configure, and test the DEM provided specific equipment in these new patrol vehicles. The mobile data terminal installer has supplied, designed, configured, and installed equipment in our patrol vehicles from the start of the mobile data terminal project seven years ago. The police radio supplier and installer is the only vendor authorized to perform work on the RISCOON police radios.

RIDEM mobile data terminal vendor and police radio installer have provided their costs for their services. Both vendors are manufacturer's authorized dealers and installers for this equipment. Copies of the vendor quotes are provided in this amendment. Both installers have agreed to supply their services to any winning bidder at the cost stated on the attached quotes.

VENDORS BIDDING ON THIS RFQ SHOULD INCLUDE THE PRICES PROVIDED BY THE INSTALLERS IN THE UNIT PRICE OF THEIR BID
