**DEPARTMENT OF CORRECTIONS
RFQ 7458109
SELF CONTAINED BREATHING APPARATUS**

This specification is to insure that the Department of Correction is provided with the proper Self-Contained Breathing Apparatus (SCBA). The department is looking to purchase twenty (20) SCBA industrial grade units each year for a period of three (3) years. The SCBA units must be equipped with backpack harness, bottle, mask, low air alarm and pressure gauge. The bottles for these units need to be a 2216 psi aluminum thirty (30) minute bottle. Vendor needs to provide the department with *various* sizes of masks. Masks are to have a mesh backing. This is a ~~two~~^{three} (3) year contract and within that time the awarded vendor is to be able to supply the Department with any additional parts and/or accessories needed to repair or modify SCBA units.

Note Per RIDOC policy : Cell phones are not permitted in secure areas

I. PURPOSE:

Tobacco use, particularly smoking, remains the number one cause of preventable disease and death in the United States. Involuntary exposure to environmental tobacco smoke (ETS) remains a common, serious public health hazard that is entirely preventable by adopting and enforcing policies. Smoking bans are the most effective method for reducing ETS exposure and are the only way to completely eliminate ETS exposure. Beyond eliminating ETS exposure among nonsmokers, smoking bans have additional benefits, including improved fire safety, reduced smoking intensity, potential cost savings to employers by way of lower healthcare and building maintenance costs and higher employee productivity due to reduced absenteeism. In addition, all tobacco products (including chewing tobacco) have an adverse effect on

health, sanitation, and the condition of the physical plant. Optimal protection of nonsmokers and smokers, therefore, requires a smoke-free environment.

Given correctional facilities' unique settings, the national trend of correctional jurisdictions adopting total smoking bans within their prison systems and that ETS exposure remains a common public health hazard that is entirely preventable, the Rhode Island Department of Corrections (RIDOC) intends to eliminate the problems and risks associated with exposure to tobacco and ETS to staff, inmates, visitors, contractors, and property under the control of RIDOC by implementing a total ban on the use of tobacco products within its facilities.

II. POLICY:

All use of tobacco products and their accessories, including but not limited to pipes, cigarettes, cigarette papers, chewing tobacco, cigars, matches and lighters, is prohibited within any and all buildings, vehicles, and property under the control of the RIDOC.

III. PROCEDURES:

A. Definition

RIDOC employees include, but are not necessarily limited to administrators, medical professionals, correctional and superior officers, non-uniformed personnel, contract employees, contractors, volunteers, students, and interns.

B. RIDOC Staff

1. The USE of tobacco products and/or accessories is prohibited within any building, vehicle, and/or property under the control of the RIDOC.
2. In addition, RIDOC employees as defined in item III.A. are prohibited from having tobacco products and/or accessories in their POSSESSION when they are supervising or have custody of inmates.
 - a. Staff who work in any prison facility or "out building" (e.g., Industry shop) must deposit any/all tobacco products and/or accessories in their lockers PRIOR TO assuming their posts.

- b. Staff who enter/visit any prison facility or "out building" (e.g., to tour the facility, to attend a meeting, to conduct an audit, etc.) may not have any tobacco products or accessories in their possession.
3. Smoking by RIDOC employees shall only be permitted during authorized breaks in designated "outside smoking areas" at least fifty (50) feet away from building entrances and windows.
4. Facility and building administrators or their designees will designate one outside smoking area per building.

NOTE: Inmate recreational areas shall not be considered outside smoking areas.
5. Facility and building administrators or their designees shall also ensure that adequate refuse containers are available to smokers in close proximity to outdoor smoking areas. Facility and building administrators ensure that such containers shall be emptied on a regular basis. Smokers shall destroy or render unusable their discarded tobacco products and accessories prior to discarding them.
6. RIDOC employees having custody of or supervising inmates (e.g., off-grounds work crews) shall not smoke or use tobacco-related products while on duty in the presence of inmates.
7. Violations of this policy may result in disciplinary action up to and including termination.

C. Inmates

1. No tobacco products shall be stocked or sold by the Inmate Commissary.
2. Smoking and/or the use/possession of tobacco-related products by inmates is prohibited.
3. Passing, receiving and/or possessing tobacco and/or tobacco-related products (Category 1 contraband) is a Class 2 offense. Discipline shall be administered consistent with policy 11.01-4 DOC, Code of Inmate Discipline, or a successive policy.

4. Upon commitment to the Intake Service Center (ISC) (men) or the Gloria DiSandro McDonald building (women), RIDOC staff shall search for and dispose of any tobacco and/or tobacco-related products. These items are considered non-durable products and are subject to spoilage and, therefore, shall be destroyed.

NOTE: Information regarding the "Smoking and Tobacco Regulations" policy will be included in inmate handbooks and outlined during inmate orientation.

D. Visitors

1. Wardens or designees will ensure that signs are posted in each facility lobby in English and Spanish stating that visitors are prohibited from bringing any tobacco-related items into the facility. Visitors shall secure all tobacco-related items in lockers located in facility lobbies.
2. Any visitor refusing to comply with the "Smoking and Tobacco Regulations" policy shall be denied visiting privileges. (See policy 24.03-2 DOC, Visits, or a successive policy.)
