Quick Pak Program

Revised June, 2009

The LSI Quick Pak program has been designed to give *Quick and easy access* to the site lighting packages that are used most often in multi site retail facilities.

The *New Construction* section highlights complete assemblies that include all the components, anchor bolts to lamps, that you need in a matched set. This allows for a *Quick one item product string* that is easy to order.

The *Upgrade* section includes the same popular fixtures *plus* LSI's patented Internal Slip Fitter for site lighting upgrades that can use the existing pole.

Wall Mount and *Floodlight* fixtures are also available.

All products, except OF II Series, are available in standard black and bronze polyester powder coat finishes in a *Quick 5 working days*. Other colors are available with slightly longer lead times. OF II Series is available in bronze only in a *Quick 5 working days*.

For the ultimate in Quick Pak advantages select one of our *Quick Pick* selections indicated by the grey box. These packages represent the Best Choice selection in terms of value and effective lighting performance.

New Construction

- Challenger Series
- Challenger II Medium Series
- Greenbriar Series
- Citation II Series

Upgrade Assemblies

- Challenger Series Upgrade Packages
- Challenger II Medium Upgrade Packages
- Greenbriar Upgrade Packages
- Citation II Upgrade Packages

Wall Mount

- Challenger Wall Sconce Series
- Eagle II Series

Floodlight

- OF II Series

Please Note:

Packages marked with wind zone values are suitable for installation in areas with wind zones equal to or less than the value indicated.

Upgrade Packages marked with EPA values are suitable for installation on square poles with pole strengths equal to or greater than values indicated. The customer is responsible for determining existing pole size and suitability of pole strength for wind load in his area.

EPAs are for locations 100 miles away from hurricane ocean lines. Hurricane ocean lines are the Atlantic and Gulf of Mexico coastal areas.

Terms

Net 30 days after the date of invoice. A 1 1/2% per month service charge will be added to all past due balances. Prices are F.O.B. shipping point, shipping and handling allowed on orders with a selling price of \$2500.00 or more, per shipment, per destination in the continental United States.

CHALLENGER® II MEDIUM SERIES

400 Watt

The Challenger II Medium comes with a 400 watt Pulse-Start Reduced Envelope lamp and a choice of a clear flat or clear sag tempered glass lens. Forward Throw, Perimeter Forward Throw and Type 5 light distributions are available. Fixtures have a multi-tap ballast, Prewired to 277 volts. Fixture size and aerodynamic design make the Challenger the lowest EPA in the Quick Pak package. Poles are 4" x 4" x 11 gauge square steel.

Quick Pak assemblies include complete fixture, pole, anchor bolts and base cover. Standard finish colors are bronze and black. Consult factory for alternate colors, lenses and lead time. Ground re-lamp option is not standard, but is available only on fixtures with a sag lens. Refer to price sheet for cost and lead time.

FLAT LENS
