**RFQ #Re: RFQ 7461331 - Powers Building Granite Replacement**

**OPENING DATE AND TIME: 05/08/2013 @ 10:15 AM**

**MANDATORY PRE-BID MEETING WILL BE HELD 04/30/2013 @ 9:30 AM  
AT THE EAST SIDE ENTRANCE OF ONE CAPITOL HILL, PROVIDENCE, RI 02908**

**Submitted questions and with answers**

1. Where are the (2) additional panels you said needed to be replaced.  
Length? width? You showed us 4 today ond right?

A- This RFQ is focused on the replacement of only four panels:

Panels A&B are located on the left face of the building as you enter the East entrance of the powers building ( see attached diagram )

Panels H&I are located above the overhead door at the loading dock on the North face of the building lower level.

2 Only (2) pieces were shown on the sketch noted as A & B however, the RFQstates (4). There are (2) broken directly opposite to the (2) shown on the sketch?? Are these the ones that are to be replaced?

A- Panels A&B are the only panels at the East entrance to be replaced under this solicitation. The other two panels are located above the overhead garage door at the lower level loading dock. As indicated in the solicitation, each of the four panels which have been damaged and are scheduled to be replaced in this solicitation, shall be removed "full size" and intact and stored on site.

3. There is an additional cracked piece inboard of what's shown (on the same side). Is that added to this RFQ?

A- No, this RFQ addresses only the four pieces identified in the RFQ.

4. What is the thickness of the granite. It appears they are 11/4" however

only 1 1/2" is available. Please advise.

A- Each bidder will be responsible to ascertain and verify the exact color, size, shape, thickness, fastening, anchorage, attachment, bevel and surface finish of each of the four panels to be replaced and match exactly the existing panels.

5. How are these panels attached to the wall?? Spec.?

A- The mounting and attachment hardware is visible at the two panels located over the loading dock and a more thorough inspection of the existing hardware will be done once the existing panels are removed. The new panels will be set and installed in a similar fashion.

6. Spec and color of joint? Caulk or mortar?

A- The successful bidder will be responsible to match in like and kind the existing caulking materials including matching the color of the existing joints in so far as possible.

R.GILL
