Vendor Questions:

Bid #7535369 – Utility Locating Services, Rhode Island College

- 1) For items 7-12 Is this hourly rate to include the Air/Water Vac equipment along with labor or just the labor only?

Response: Labor only, the equipment rental is listed in items 43-45

- 2) For items 13-18 Does this require Engineered stamped drawings for final deliverable product

Response: Yes

- 3) For items 19-24 This mentions "interior construction" excavation to expose impassable conduits. Does this mean interior as inside buildings or is this strictly outside work. Also is this supposed to include the possible need of backhoe work?

Response: The intent of this section is to cover the labor for digging by hand, not a backhoe. Most of our conduits are outside. There could be a situation where a conduit is impassable in the interior of a building. Ex. An impassable conduit in the cement slab of a basement.

- 4) For items 25-30 This notes "provide and install" mule tape. Please clarify whether this is to include providing the mule tape materials and raceway rodding equipment as well as the labor or just labor only.

Response: The mule tape is covered in sections 37-39. The rodding equipment rental is covered in sections 46-48. This is intended to cover the Labor.
