Pre-bid Conference: 11/22/13

Bid #7536373

Titled: Pest Control Services – Rhode Island College

Vendor Questions:

1) Bid requires providing services to the Day Care Center. Is this location a designated room/area or the complete building that would require services?
   Response: Complete Building.
2) Is Bed Bugs treatment inclusive of this bid or is it a separate bid.
   Response: Inclusive of this bid.
3) Does bid consist of weekly, monthly services or "on call", "as needed".
   Response: On call, as needed.
4) Can the last bidding price be available?
   Response: Yes, please see attached.
5) What is the amount spent on last contract?
   Response: Fiscal Year 2011-2012 - $9,720.00 and Fiscal Year 2012-2013 - $9,900.00
6) Is there a special time for services?
   Response: Prior to performing services company representative must first check in at the Facilities Building. There hours of operation at 7:00 am to 4:00 pm
7) Are all kitchen/Dinning facilities also on an "as needed" basis?
   Response: All Dinning, Cafeteria and Café facilities including the Donovan Dinning Center are not included in this solicitation. There is no other separate contract s or types of companies providing service for locations associated with this bid.
8) Is there a special person the technician reports to before they go on site?
   Response: Yes Usually RIC Facilities secretary handles work orders.
9) Who is the current contract awarded vendor?
   Response: Steri Pest Control, contract expires 12/13/13.
10) Is response time within 24 hours?
    Response: yes.
11) Will authorized personnel be assigned to a technician when entering certain locations, particular student dorm?
    Response: Yes.
12) What is the procedure if a service call cannot be responded to within 24 hours due to building hours of operation?

Response: Vendor technician will contact Rhode Island College Campus Police. This procedure is for a serious inquiry/emergency situation. Service response time is 24-48 hours for an emergency. These types of occurrence rarely happen during off hours.

13) With a Bed Bud issue, a preparation sheet is given to people in that room before treatment is done?

Response: Yes, vendor will be dealing with the residence hall director.

14) Is there a vendor charge if they need to perform an inspection for a Bed Bug call?

Response: Yes, vendor rate would charge hourly rate bid for that particular building.

15) Are vendors following HUD regulations on how to deal with bed bugs?

Response: No, Rhode Island College does not receive HUD funds.

16) Question regarding hours for Henry Barnard School; if they have after hours events? Reason being the school day extends and includes any scheduled school activities that may involve students, not necessary faculty but students. Because of that school IPM laws apply and that would tie the hands of a pest control operator. In conclusion if a treatment needs to be applied inside or outside of the grounds that are designated Henry Barnard School. Only limited applications are accepted to perform making vendor not able to respond within required 24 hour time frame. DO they have regular hours and/or do we check in with someone and is the schedule available for such activities.

Response: Service response time between 24-48 hours. Check in with Facilities and Operations a t the Physical Plant during normal business hours or check in with Campus Police.

17) If vendor needs to enter room in a certain dorm is a chaperone provided by RIC?

Response: Yes.

18) What are the biggest problems regarding pest control on campus?

Response: Not limited to ants, Bed Bugs, kitchen located in Henry Barnard School (NOTE: THE CAFETERIA LOCATED WITHIN HENRY BARNARD SCHOOL IS NOT INCLUDED IN THIS BID), silver fish, bees.

19) Are there many calls for bed bugs?

Response: Not necessarily any out breaks, estimates possibly 12 times a year.

20) Who is the vendor used for wildlife?

Response: This is on a case by case basis.

21) Termites that have to be sent out to be inspected is that an extra charge that is no included?

Response: Should be included, it is a fee.

22) Are there building currently being treated (for termites) on a renew basis.

Response: No

23) Are there any outside rodent issues?

No complaint to date.

24) Are there any buildings with exterior bait stations?

Response: Henry Barnard School may have exterior bait stations for rodent control.

25) Who is responsible for equipment? Example, campus is inundated by rats on the outside and vendor needs to cover every building with outside rat stations, Question: Who pays for the outside rat stations?

RFQ 7536373 PEST CONTROL SERVICES – RHODE ISLAND COLLEGE

NOTE: The use of least toxic pesticide (gels & baits) should be first line defense in office buildings. This applies to offices only not cafeterias, kitchens, and residential wards. If further treatment is required, application of liquids may be used either as required by the pesticide label. Treatment should occur when offices or facilities are unoccupied, not during regular business hours. Consideration of integrated pest management techniques are strongly encouraged before using liquid pesticides.
