*23 FOOT Enclosed Cabin Vessel*

**BID #7541376**

**Introduction:**

The Wildlife Section with the Department of Environmental Management has various responsibilities and obligations for surveying and monitoring Rhode Island's wildlife on marine islands as well as inhabiting near and offshore waters of Rhode Island. In addition, near and offshore work is conducted to collect information on marine water birds for various reasons but most recently to inform the Ocean SAMP initiative in guiding placement of wind power. A seaworthy vessel with protection from the elements is necessary as work is conducted during daylight and nighttime hours and weather can quickly change while on the water. The vessel must be able to handle changing conditions and dangerous sea conditions to provide safety for the staff in these situations.
