**Rhode Island State Police
Vehicle Preventative Maintenance and Repairs**

BLANKET REQUIREMENTS – 4/1/2014 – 3/31/2016

SCOPE:

The purpose of this request for proposal is to solicit offers from full-service automotive and light truck repair facilities for a broad spectrum of maintenance and repair services as may be required for vehicles in the State Police Fleet. Because this fleet is dispersed across the State, facility location will be a prime consideration with regard to selection and award, and it is the State's intent to identify and award to one or more repair facilities based upon regions. The State Police do not guarantee a minimum amount of repairs to any vendors who are selected. Vendors are chosen by individual Troopers based on work location, commuting schedules and work scheduling.

SCHEDULING:

Work orders will be issued through the Department of Administration/Office of State Fleet Operations. Where service appointments are required, it is expected that the State Police vehicles will be given priority, and that, in any event, an appointment will be made for a date not to exceed five (5) days following the request. **Any State Police Vehicle requiring emergency repairs will be accommodated by the assigned vendor as soon as reasonably possible.** All drop off services will be accomplished during the same business day unless prior approval has been granted by the Division. In such cases where work cannot be completed in the same day, the vendor will provide an anticipated completion date.

Vendor shall notify the Division, in writing, why a completion date cannot be met.

In an effort to maintain the highest level of quality, the Division reserves the right to, and periodically may, conduct re-inspections of any vehicle to which repairs have been made or periodic maintenance has been performed by a contract vendor. This re-inspection shall be conducted by such personnel and at a location that is deemed appropriate by the Superintendent of the State Police or his designee.

INVOICING FOR SERVICES RENDERED:

A. Parts

Invoices shall cite the work order number, and a copy of the parts price list must be attached for any repairs made to Division vehicles, excluding any periodic maintenance or other repair for which a flat-rate fee has been previously provided and agreed to. Each invoice shall include an itemized list of parts used and a price for these parts less the percent (%) discount. Vendor will also list all fluids used and the price for such fluids in accordance with the "fluids price list page".

When parts are furnished by the State, they shall be itemized on the contractor's invoice as "State furnished parts, "no cost".

Parts pricing cannot exceed the manufacturer's list price as determined by the parts manufacturer. This price is constant, and shall only vary in accordance with legitimate, periodic increases or decreases by that particular parts manufacturer. This price is not set by the vendor, parts supplier, or any other person, firm or corporation other than the legitimate manufacturer of a particular item. Any representation by the vendor of any price that is higher than the manufacturer's list price, for the purposes of subtracting the percentage (%) of discount to the State, shall be considered fraud, and any vendor making such representation may be subject to termination of their contract, and other sanctions including criminal prosecution.

B. Labor

Invoices shall include a clear and complete description of repairs performed, and may include a copy of the corresponding flat rate manual page relating to these repairs. The invoice shall include a total of the hours of work performed (number of hours and/or fractions thereof) as determined in accordance with this manual. A page reference must be included with every invoice indicating the page number, issue number, and the volume number of the flat rate manual (shop time book) used in calculating the total hours. This flat-rate manual shall be a publication which has been pre-approved by the Division for this purpose.

No flat rate fees for diagnostic labor shall be accepted; all times must be as per the flat rate manual.

C. Sub-Contracting (See Evaluation of Offers)

When sub-contracting is necessary, invoices will include a separately noted, fully disclosed itemized listing of sub-contracted work performed. **Vendor invoices shall also include a copy of the bill-for-services** as provided to the vendor by the sub-contractor. A list of mark-up of the sub-contractor repair(s) will also be included, and shall be in accordance with the agreed upon percentage of mark-up of such repairs. **Any failure of the vendor to properly provide the required copy to the sub-contractor bill-for-services, or in any**

way fail to accurately provide any of the required invoicing information will result in NON-PAYMENT.

NOTE: All pricing is to be invoiced within the categories outlined. No "supplies", "freight", "hardware", or other miscellaneous charges will be accepted.

BILLING FOR SERVICES RENDERED

The contractor shall render invoices for services performed directly to the State Police. Under this arrangement, the contractor is responsible for furnishing **one (1) copy** of the invoice at the time the service is completed, and the obtaining the signature of the person receiving the service on the original as well as any copies of said invoice. Invoices submitted which do not contain the required signature are subject to **NON-PAYMENT**.

Invoices shall contain the make, model, year and vehicle identification number (VIN), vehicle number, date of service, vehicle mileage at the time of service, and the name of the authorized contractor employee preparing the invoice. Invoice shall also include signature of person receiving service. Invoice shall also contain the **purchase order number** issued by State Fleet Operations for the vehicle repairs and/or service. Purchase order numbers shall be obtained by the Division member arranging for service with the vendor. **In no instance shall a vendor contact State Fleet Operations directly for the issuance of a purchase order number.**

A Division member dropping off a vehicle for service at an authorized vendor will indicate specifically to the vendor what maintenance and/or repairs are to be performed on said vehicle. **Vendors are to perform only those services authorized at the time a vehicle is delivered to the vendor, and as are indicated by a Division member.** If a vehicle is found to need additional, subsequent, or unanticipated repairs, an estimate of the total cost of these repairs shall be completed by the vendor. The vendor is then required to contact the Division's Fleet Administrator or Director of Finance before completing any additional, subsequent, or unanticipated repairs.

Any or all parts replaced as of the result of repair or routine shall be manufacturer's original replacement parts (OEM) for the full term of the warranty period for the vehicle(s) involved, unless otherwise specified in bid.

All emergency repairs must be approved by the Division Fleet Administrator at (401) 444-1048 or the Director of Finance at (401) 444-1112.

In the event a Division vehicle is experiencing an Intermittent or unknown mechanical problem, a complete and thorough diagnosis of this problem shall be made by the vendor and an estimate containing a total cost of repairs shall be completed. The vendor shall contact the Division's Personnel Officer of the Director of Finance for Authorization before completing any such repairs. **Any repairs performed without prior authorization are subject to NON-PAYMENT.**

Invoicing for EACH authorized work order **MUST** be submitted with one original plus one copy to:

**Rhode Island State Police Headquarters
Director of Finance
311 Danielson Pike
North Scituate, RI 02857**

NOTE: Invoices submitted directly to State Fleet Operations will not be processed for payment.

SERVICES NOT LISTED:

For Service or repairs that need to be performed, but are not listed in the flat-rate-manual, an estimate of the number of hours required to perform this service shall be prepared by the vendor prior to the commencement of any such work. This estimate shall then be provided to the Director of Finance or the Division's Fleet Officer for authorization and approval. If approved, this estimate shall become the ceiling as to the maximum number of hours to be charged for labor under the contract for that repair order. Time allowance for such work shall be the actual hours of productive labor necessary to complete the job, but not to exceed the ceiling. At the point of invoicing such repair orders, approval and acceptance of the charges by the Division, or otherwise subject to question based on cost experience and estimates of prevailing costs for such work, the Division reserves the right to procure estimates and services by other authorized vendors, or on the open market, as a comparison and/or alternative to the estimate provided by the original vendor.

In those cases where a multiple of services and/or repairs are **combined** in a flat-rate-manual, the total number of labor hours provided by the flat-rate manual for this combination of services shall be used by the vendor in preparing the total labor charge. In no case shall a vendor list separately any labor charges for repairs that are combined in the flat-rate manual. Any invoices submitted which include such a separation shall be subject to **NON-PAYMENT**.

LABOR GUIDES:

Mitchell guide will be used.

WARRANTY:
