**RFQ #7548555 – Zero Tail Swing Excavator**

**Vendor Question(s):**

While in review of the RFP documents pursuant to Bid 7548555, there are a few specification that I believe are outside of the capability of any comparable machine on the market.

On the first specification form page, the "Lift above ground level" and the "Digging Depth" are listed at 19.7' and 21.3' respectively. Upon review of Bobcat and Competitive specification, I can find no machine on the market in the 11000lb. size class that can meet this specification. Perhaps this is an error. If it is not, I would be interested to understand which machine the specification was written around.

*Response: The dig depth is 11' 8", The reach from ground level is 18'10", The dump height is 12' 1"*

End Documents

**DESCRIPTION: ZERO TAIL SWING EXCAVATOR with GRADING BLADE  
SPECIFICATION FORM (REVISED 3/28/14) – BID #7548555**

<b>Quantity:</b>	1			<b>Vendor Indicate Compliance Yes/No</b>
