DEPARTMENT OF ATTORNEY GENERAL

150 South Main Street • Providence, RI 02903
(401) 274-4400 - IDD (401) 453-0410

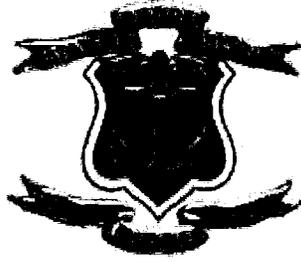

Peter F. Kilmartin, Attorney General

The Department of Attorney General would like to continue working towards a Green Cleaning Program. We will require the contractor to utilize microfiber mopping systems and rags. We are hopeful that this will reduce the amount of chemicals used, create a cleaner building and reduce waste because they last longer than traditional mops. We also feel as though the rags will reduce the amount of paper towel that is used and thrown away. We **will not** supply paper towels for cleaning purposes.

In respect to the floor care it is our understanding that at this point the technology for green products used for floor care is not there yet. We will, however, require that the vendor use a scrub and re-coat process to reduce the number of times the floors need to be stripped. We are hoping that this will allow us to cut down on the need to completely strip the floors to one time a year. By going to a scrub and recoat system we expect the floors to maintain a high performance look. We are hopeful that this will reduce the amount of chemicals used as well as the number of mops, applicators etc that end up in the landfill.

As far as general cleaning products we will require that the vendor discuss with the agency the products used to ensure that every effort is made to utilize a green product while still maintaining a high level of cleaning. It is understood that there are certain instances where a disinfectant will still need to be used, however, we will require that the products used have less impact on health than other disinfectants.

We will require that the vendor purchase 3 new HEPA vacuums with beater brushes at the start of this contract. These vacuums will remain at this facility and be properly maintained by the day porter throughout the contract. We will also require 1 back pack vacuum with a HEPA filter or high quality filtration system to be purchased for this facility and properly maintained throughout the contract.
