Solicitation #7548788

Alternative Fuel Vehicles 2015 Model Year (MPA #4712015)

Vendor Questions:

Question: All GM models currently come with free scheduled maintenance for the first 24 months/24,000 miles. This feature can be deleted, on fleet order only, for a credit of around \$250.00 depending on the model. Should all General Motors dealers take the credit offered, or, provide the vehicles with the free maintenance feature?

Response: Take the credit offered.

Question: Some of the vehicles offered by General Motors dealers, come with the OnStar satellite communication system, as standard equipment. This feature requires payment of monthly subscription fee after the initial trial period. This feature can be deleted for a credit of approximately \$75.00. Should GM Dealers delete this standard feature, and include the credit in our base price, or, provide vehicles with this standard feature?

Response: Delete this standard feature and include in the credit in base price.

End
