**ADDENDUM NUMBER ONE**

**RFQ # 7548848**

**TITLE: Construction Services for Supply and Intel Building at RISP Headquarters**

**Closing Date and Time: 7/25/14 at 10:00 AM**

**Per the issuance of this ADDENDUM #1 (17 pages and pdf files) the following is noted:**

This addendum posts the sign in sheets from the mandatory pre bid conference held 7/14/14 at 10am.

This addendum posts the transcript of that pre bid conference.

This addendum includes miscellaneous modifications to the Project Manual, Specifications as well as several drawings.

This addendum posts answers to those questions sent in on line to [doa.purbidinfo@purchasing.ri.gov](mailto:doa.purbidinfo@purchasing.ri.gov) which were accepted until 5pm on July 16, 2014.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS  
DEPARTMENT OF ADMINISTRATION  
CAPITAL PROJECTS

PROCEEDINGS AT MANDATORY PRE-BID :  
CONFERENCE IN RE: :  
:  
RHODE ISLAND STATE POLICE, SCITUATE :  
BARRACKS, SUPPLY & INTELLIGENCE :  
BUILDINGS REHABILITATION :

PLACE: Rhode Island State Police  
Scituate Barracks  
Colonel Stone Conference Room  
311 Danielson Pike  
North Scituate, RI 02857  
DATE: July 14, 2014  
TIME: 10:00 a.m.

BEFORE:  
DAVID A. CADORET, CHIEF BUYER, RIDOA  
CRAIG ANDERSON, UNION STUDIO  
LIEUTENANT ROBERT CUNNIFF, RISP

1 (CONFERENCE COMMENCED AT 10:09 A.M.)

2 MR. CADORET: Good morning, everybody.  
3 My name is Dave Cadoret from Rhode Island State  
4 Purchasing. I will handle any of your questions as  
5 far as the bid process itself goes. Lieutenant  
6 Cunniff will handle the questions as far as working  
7 on this campus, and Craig from Union Studio will  
8 answer any of the questions as far as the scope of  
9 work.

10 First off, we do have a stenographer  
11 here, so if you ask a question or make a comment,  
12 please state your name first so she can enter it  
13 into the record. I'm going to go over a couple of  
14 the details as far as the bid process itself goes.

15 This is a mandatory pre-bid conference.  
16 Only those vendors on the sign-in sheets will be  
17 allowed to submit bids. The sign-in sheets are  
18 still going around, so we will make sure we get  
19 everybody before we finish.

20 We are accepting questions online until  
21 Wednesday, the 16th. The e-mail address is on the  
22 bid proposal itself. There is a bid bond required.  
23 There is a payment and performance bond required.  
24 And the specifications and plans are online. This  
25 is a public works project. Each bid proposal for a

1 public works project must include a public copy to  
2 be available for public inspection upon the opening  
3 of the bids. The way to do that is built into the  
4 bid's instructions. And it is a CD disc, and there  
5 are instructions how to name it. If you don't  
6 submit that disc, your bid will be deemed  
7 nonresponsive.

8 There is one alternate with this bid,  
9 and we're asking for unit prices within the bid form  
10 itself. There are 11 pages of bid clauses. As they  
11 pertain to public works, they're relatively new,  
12 some of them. We ask that you look them over and be  
13 aware of them.

14 There is a general contractor  
15 apprenticeship certification form. Any project over  
16 a million dollars requires that form to be filled  
17 out, and that must be submitted with your bid  
18 proposal. If it is not, your bid will be deemed  
19 nonresponsive.

20 There is a subcontractor apprenticeship  
21 certification form. That form applies to your subs  
22 and goes to the GC. It doesn't come in, it is not  
23 submitted with the bid proposal. At the time of a  
24 tentative letter of award, we will ask that the  
25 general contractor apprenticeship recertification

1 and certification form be submitted again.

2 This is a prevailing wage job. There  
3 is a certification built into the bid itself that  
4 you sign and certify that you're aware that it's a  
5 prevailing wage job. And we're asking that  
6 everybody submit a completed W-9, as well.

7 Any questions as far as the bid process  
8 itself goes? All right. Lieutenant?

9 MR. CUNNIFF: As far as work  
10 procedures, you have heard of the bid document, on  
11 page 93, under 13.3(1), background standing. All  
12 contractors and employees, subcontractors and agents  
13 submitted to a background check, which was conducted  
14 by the State Police, and we reserve the right to not  
15 allow that person to work on the site based on this  
16 criminal history check.

17 If any more subcontractors are hired  
18 after you have obtained the job, they are also  
19 subject to a background check, also. So any new  
20 employee or subcontractors that you didn't provide a  
21 list to us previously have to be sent to us to do a  
22 background check on them. Any questions on that?

23 MR. ANDERSON: As far as the project  
24 scope is concerned, it's a fairly straightforward  
25 project. Two existing stone buildings: Supply

1 building and the intelligence building. The supply  
2 building is currently being used as a garage,  
3 maintenance garage, and previously office space.  
4 The second floor is currently vacant.

5 The intelligence building, the smaller  
6 building out at the backside of the site, is  
7 currently vacant. We will take a walk through  
8 afterwards. I'm not sure if everybody has  
9 downloaded the documents yet or not, but, again,  
10 fairly straightforward. We will take a walk  
11 through, make note of the existing conditions.

12 Hazardous materials, there were  
13 hazardous materials reports included in the project  
14 manual. Asbestos material, lead material, and some  
15 PCBs in the supply building. The intelligence  
16 building is clean. We have submitted abatement  
17 plans to Rhode Island DOH.

18 We will be issuing an addendum this  
19 week. The reports will be included in the addendum.  
20 That aside, does anybody have any questions  
21 regarding the overall scope of work at this stage?  
22 Questions will be until Wednesday, via E-mail until  
23 Wednesday.

24 MR. CADORET: Once we get the  
25 questions, if we get any, we will send them to

1 Craig. He will answer me, send them back to me, and  
2 we will post the addendum in the next couple days  
3 after that. No questions at this point? State your  
4 name, sir?

5 MR. PLATT: Anthony Platt, Premier  
6 Development. Both buildings will remain unoccupied  
7 during all of the construction?

8 MR. CADORET: Correct.

9 MR. PLATT: And you definitely need  
10 these projects phased one and two, one following the  
11 other?

12 MR. ANDERSON: Yes. That was set forth  
13 in the project manual, the phasing requirements.

14 MR. TIKOIAN: I have a question about  
15 the phasing. When you say Phase 1 and II, do you  
16 mean you're going to work on one building first, and  
17 then the second, or do they have the option to work  
18 on both simultaneously?

19 MR. ANDERSON: You do have the option  
20 to work on both simultaneously. As it's set forth  
21 in the project manual, there's certain dates that  
22 are laid out in written format. We're looking to  
23 maintain those dates. But, again, there's nothing  
24 that states that you can't work on both buildings  
25 simultaneously.

1                   MR. CADORET: Anybody else? Before we  
2 move on, I just want to make sure I get the sign-in  
3 sheets and that everybody has signed in. Did  
4 everybody sign in? When we tour the buildings, it  
5 is a rather large group, we ask that if you have any  
6 questions, you ask them so that as many people can  
7 hear. We will repeat the question, and then answer  
8 to the group, and we will post them in the addendum,  
9 as well.

10                   MR. ANDERSON: Or again, submit via  
11 e-mail prior to Wednesday, and we will include all  
12 the answers in the addendum that will be issued.  
13 And that's it.

## ADDENDUM

ADDENDUM NO.: 01  
DATE: 7/17/2014  
PROJECT: Rhode Island State Police, Supply and Intelligence Buildings  
Interior Alterations & Reconstruction  
PROJECT ADDRESS: RI State Police Scituate Barracks - Headquarters  
311 Danielson Pike  
North Scituate, RI 02857

TO: Respective Bidders

This Addendum forms an integral part of and modifies the Bid Documents for the subject Project, dated May 16, 2014. Receipt of this addendum must be acknowledged by the Contractor on the Bid Form.

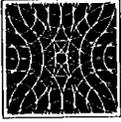

ITEM #	ITEM DESCRIPTION
<b>PROJECT MANUAL AND SPECIFICATIONS</b>	
1	Exhibit A, Closeout Procedures & Documents List for Rhode Island Capital Projects: Add Page 1 of 1, Closeout Procedures & Documents List for Rhode Island Capital Projects.  Note: The intent of the Exhibit A documents is to provide a continuous update on where close-outs procedures and documentation stand throughout the construction process. The required documentation must be provided as outlined, in a progressive manner and to allow for periodic evaluation to verify close-out work and documentation is being addressed throughout the duration of the project. Refer to Exhibit A and Section 017700, Closeout Procedures for additional information..
2	Table of Contents – Remove Division 02 reference to Section 028000 Facility Remediation.
3	Add Specification Section 028200, Asbestos Remediation.
4	Add Specification Section 028400, Polychlorinate Biphenyl Remediation.
5	Add RI DOH Asbestos abatement plan approval letter.
6	Add RI DOH Asbestos abatement plan approval letter for waiver of floor sheathing requirement.
7	Section 073113, Asphalt Shingles: Add the following to Part. 2.2 Glass-Fiber-Reinforced Asphalt Shingles: Roof shingles at new Intelligence Building addition shall be Certainteed Independence Shingles; Color: Colonial Slate, to match existing.

**UNION STUDIO**  
ARCHITECTURE & COMMUNITY DESIGN

4	o <b>Question:</b> For the pipe underground already you want fiber optics run through it. Who is going to be running it and who is going to install it / connect and terminate?
	o <b>Response:</b> Per Section 270000, Communications, the General Contractor is responsible for furnishing and installing all fiber optic cabling. Work performed by the Electrical Contractor and Systems Integrator as well as coordination of the required Work is further defined therein. The General Contractor is also responsible for verifying the existence of underground conduit as well as the suitability of such conduit for use in the new design. The Contractor shall immediately notify the Architect in the event any discrepancies and/or issues are discovered that could potentially impact the proposed scope of work as outlined in Section 270000.
5	o <b>Question:</b> On IT cameras who does final connections and supply's them?
	o <b>Response:</b> Per Section 270000, Communications, the General Contractor is responsible for furnishing and installing all IP Security Systems cameras as well as other associated components and cabling . Work performed by the Electrical Contractor and Systems Integrator as well as coordination of the required Work is further defined therein.
6	o <b>Question:</b> Is furniture to be provided and installed by the general contractor?
	o <b>Response:</b> The General Contractor is responsible for furnishing and installing the entire FFE package as outlined in specification Section 125000, Furniture and on drawing Sheets 1101 and 1102 for both buildings.
7	o <b>Question:</b> On drawing A602 of the Supply Building set it indicates in detail C5 that there is a window "D2" but window types noted on the same page do not show a window type "D2". Please advise if window exists.
	o <b>Response:</b> Refer to revised drawing Sheet A602, Window Types & Details.
8	o <b>Question:</b> Drawing A101 (Supply Building) – Structural Key Notes S.001 & S.002. Can you please provide a sketch illustrating the intended connection method for the steel referenced?
	o <b>Response:</b> Refer to SK-1, Structural Detail Section for additional information and clarification.
