Courtesy copy of Attendance Sheet from Pre-Bid Conference
held August 21, 2014.

APPROVED:

Kazem Farhoumand, P.E.
Chief Engineer

8/25/14
DATE

ADDENDUM # 7548922PH1A1
RI Department of Transportation
August 25, 2014

TO ALL RESPONDENTS:

RIDOT is seeking traffic engineering services to evaluate and design new destination and guide signs along the entire stretch of Route 146 from Providence to the Massachusetts State Line. The RIDOT anticipates the award of ONE (1) DESIGN CONTRACT that will have a contract completion date of **THREE (3) YEARS**; it is anticipated that these services will generate THREE (3) Construction contracts to be broken down by Municipality (North Smithfield, Lincoln, Providence/ North Providence).

Contract costs will be negotiated with the selected Consultant on a **cost plus fixed fee basis**. Prime and applicable sub-consultants may be required to undergo a Pre-Award audit conducted by the RIDOT Audit Division. Respondents shall also be advised that RIDOT has recently revised the Audited Financial Statement requirement for engineering contracts and will accept a **REVIEW REPORT** from the selected firm for formal financial review and acceptance. Specifics regarding this submission are formally outlined and posted under **TAC-0255 dated 8/4/14**.

This Project has been assigned a **10% DBE GOAL**. Disclosure of DBE firms proposed and the work to be performed **MUST** be included as part of LOI submission along with copies of current state certifications. DBE certification must be approved at the time of proposal submission.

The selection process for this project will be in **TWO- PHASES**; the first phase will require firms to provide a **LETTER OF INTEREST** for RIDOT review and shortlist consideration. The shortlisted firms would then be required to submit a TECHNICAL PROPOSAL for Final Selection Recommendation.

There will be no 25 page narrative requested. The LOI shall be limited to the submission of the completed **SF 330** document (PARTS 1 & 2) to be completed by the PRIME Consultant and supported by the applicable SF330 attachments and the requested Exhibits as cited in the RFP. Respondents may access the SF 330 document at www.gsa.gov.

DUE DATE for proposal submission (ORIGINAL + 5 Copies) is **SEPTEMBER 5, 2014 no later than 11:30 AM**; Submission package must be submitted to the **RIDOA/ Division of Purchases, 2nd Floor, One Capitol Hill, Providence, RI 02903** and should be clearly labeled as to **RFP # and Project Description**. LOI Proposal must also be submitted on CD ROM also clearly labeled and included on the inside cover of each submission copy.

Additional questions may be posted at the RIDOT website @ www.dot.ri.gov through steps outlined in RFP. The Q&A Forum will disable 5 full calendar days prior to the due for this project; therefore the Q&A portal will close at NOON on AUGUST 30, 2014. A determination will be made by RIDOT, in coordination with Purchases, whether an addendum will be required.

1. Q – Will there be any ITS applications needed along this corridor?

A – NOT AT THIS TIME. The goal under this contract is specific to the guide signage only. ITS efforts are continually coordinated along with the RIDOT/TMC and will be added to this project as needed.

2. Q – Is existing topographic mapping available or will this task be required as part of this project?
Assume mapping must be GIS based??

A – YES. New GIS based topographic mapping will be required under this project.

3. Q – Are the shop drawing reviews limited to the sign panels and structures?

A – YES. However this effort could change to exclude the need for a shop drawing review of the sign panels based on the Department's practice at that time.
