Addendum #1

BID #7549276

TITLE: MIGRATION SERVICES – ZIMBRA & MICROSOFT EXCHANGE TO GOOGLE APPS FOR EDUCATION

SUBMISSION DEADLINE: FEBRUARY 12, 2015 AT 2:00 PM (ET)

ATTACHED ARE VENDOR QUESTIONS WITH STATE RESPONSES. NO FURTHER QUESTIONS WILL BE ANSWERED.

**Gail Walsh
Chief Buyer**

1. What is the average size of mailboxes for Zimbra, Exchange, and Special Departmental email servers?

Answer: For Zimbra the size is less than .5 GB for 3747 accounts although 839 have been inactive for 90 days or more. For Exchange the size is approximately 1 GB for approximately 250 accounts.

2. What type of email servers are the Special Departmental email servers residing in the College or Engineering? Are they RFC 3501-compliant IMPA servers?

Answer: The servers are RFC 3501 compliant IMAP servers. We are using the Cyrus IMAP server.

There are faculty, staff, emeritus faculty, and adjunct faculty that will probably be moved, but there are many who will be difficult to move like alumni, visiting scholars, and students.

Ideally, we can move any IMAP accounts ourselves, and then go to split delivery on Google, where unrecognized addresses are sent back to our server. We are not certain if split delivery would be temporary. We ask that vendors suggest a solution.

3. What is the timeline for the migration?

Originally we were trying for June 30; however, I believe that is a question we can work out with the selected vendor.

4. What is the user population on each server?

See answer above; however, they are mostly faculty and staff, not students who are already on Google apps. without migration.
