Specification Change / Addition / Clarifications

Below is a question along with the answer regarding this Request for Quote:

- Question:** After downloading and reviewing your request for quote bid # 7549461 for the University of RI potable water storage tank cleaning and inspection (2 tanks), we have a question. We would like to quote the in service assessment and cleaning by means of remotely operated equipment in lieu of diver. All the items stated in #1 and #2 of the scope of work would be achieved by this method and all equipment would be thoroughly disinfected before being placed into the tank.

Please advise if our alternate means of assessment and cleaning is acceptable. If so, we will return a bid in accordance with the submission date/time.

Answer: We want the inspection and cleaning to be done only by a diver. We have used ROV's in the past and the diver does a better job.
