ADDENDUM # 2

RFP# 7549816

**TITLE: NBC Master Plan for Renewal + Horn Laboratory Feasibility Design
Services
The University of Rhode Island, Narragansett Bay Campus**

Submission Deadline: Wednesday September 16, 2015 at 10:00 am (Local time)

Notice to Vendors:

Attached are questions received with responses, no further questions will be answered

**Tom Bovis
Interdepartmental Project Manager**

Interested parties should monitor this website, on a regular basis, for any additional information that may be posted.

1. Do I understand that the existing campus wide master plan is in need of updating?
There is no date on the master plan provided in the zip file.

The date of the previous Master Plan that was released with the RFP is on the cover of the release Master Plan document and is August 2000

2. RE: Horn Laboratory, also known as the Horn Marine Laboratory. Can you tell me the physical assets inside the laboratory? Is there analytical laboratory instrumentation in this 17,000 sq ft building? If so, what?

The main analytical instrumentation in this building right now is in just two labs. There is molecular sample processing (DNA extraction) equipment in the building. There is a tour of the building on Wednesday, September 9th at 10 am as posted in addendum #1. Anyone can visit and review the complete physical assets and instrumentation that exists.

3. Can a vendor (us) submit bid for Horn Laboratory matter only?

Vendors must submit for both parts of the RFP as one proposal, with costs of each component broken out. Although there needs to be one prime vendor, we encourage respondents to team with multiple firms in order to address all the specialize components of this project.
