ADDENDUM # 1

10/23/15

Solicitation RFQ #7549946

Title: Catch Basin Cleaning – Rhode Island College

Submission Deadline: October 30, 2015 @ 10:30 am

Per the issuance of ADDENDUM #1 the following are noted:

Vendor Questions:

- (1) Question:** The solicitation ask for price per ton for disposal and in the specifications (pg.1, paragraph 3) it states that the material will be disposed of in roll-off containers provided by RI College, is the contractor supposed to transport and empty these containers at a disposal site of his choice or is the College handling disposal?

Response: The contractor transports and empties the container to a disposal site of their choosing. Generally speaking, the material is emptied onto the asphalt in our material staging area and the loaded into a container on a flat bed, which the contractor provides to transport the material. To date the college has not provided a container for the dunnage catch basin material that I know of.

- 2) Question:** Should the disposal price per ton include transportation?

Response: Yes, the cost for disposal should include transportation.

Interested Parties should monitor this website on a regular basis, for any additional information that may be posted.
