Vendor Questions for RFP # 7550014

Question 1: On page 1, it lists only one item but there is a total of four. Should I put the total cost for 1 machine, drum, rebuild kit, and wear parts kit as the Unit price?

Answer to Question 1: Yes, Should include everything on page 1.

Question 2: On page 1 in the section that says Delivery, is that asking the delivery terms such as prepay and add?

Answer to question 2: Delivery must be by March 1st, 2016. There will be no prepay. Payment is a 30 day billing after delivery.

Question 3: On the second page of the specifications the bid lists options for the machine such as it coming in gas or electric and then all of the cutter options. As these are options that can purchased later but will not be included with the original order should I check that the meet the specifications and just indicate they are optional add ons for a later purchase? Also the machine does come in electric or gas but it cannot be both so would I just check the gas as meeting specifications?

Answer to question 3:

- Solicitation requires bidders to supply a Honda 13hp Gas Engine.
- All options specified will be supplied with original order and must be included in vendors cost proposal. Check all items that meet the specifications.
- Machine is to be Gas operated and equivalent to a VA25 SASE or Von Arx.

Deletions to Options (page 2)

NOTE: The following Options are being deleted from this solicitation. Vendors are not to include pricing in there proposal for the options being deleted (omitted) from solicitation.

Electric (HP) + (Drive HP) 7.5
Cutter Drum / Tool Choices; Diamond Shavers, Groovers
Tungsten Carbide Milling Picks
Carbide Scrapers, Millers
Steel Flails 9Beam or Stars)
Wire Brush
Bushed Drums

Modification to Option (page 3)

NOTE: A Serpentine Belt is being required for the following Option: **Drive System (# of belts) 1.**

End.
