A. Clarification

1. Truck Mounted Attenuator

The Pre Bid meeting for the project was held on March 24, 2016. The attendance list is attached. A question was asked by Jim Hurley of Road Safe Traffic.

The question was as follows:

The typical traffic control details (No. 2, 3,4) in the contract documents show truck mounted attenuators on Vehicle #4-Advance Warning Vehicle, Vehicle #3-Shadow Vehicle, and Vehicle #2-Work Vehicle (Cone Setter). In previous contracts, Construction has allowed charges for TMAs for Vehicles #3 and #4 but not #2. Why is no charge allowed for Vehicle #2?

RESPONSE:

Per Special Notices to Contractors in Page CS-1 of the contract documents, TMAs are required on the Advance Warning and Shadow Vehicles. The TMA on the Work Vehicle (Cone Setter) is part of the work setup and is not paid for separately but is incidental to the T20 striping items.
