**TITLE: REMOVE EXISTING ASPHALT PARKING LOT AND REPLACE AT  
WARREN ARMORY**

**Closing Date and Time: 4/22/16 at 10:00 AM**

**Per the issuance of this ADDENDUM #2 (1 page) the following is noted:**

This addendum answers question(s) sent in on line and accepted until 4/7/16 until 5pm.

Q. On the revised statement of work it states: Move and relocate (2) flag poles. Poles will be sanded, painted, and new rope and pulleys.

Due to the fact that these old flag poles are steel there is a high likelihood that the inside of the pole is rusted and weakened. When attempting to move them there is a concern that they could warp which could result in a permanently bent pole or they could break at the welds.

Could these poles be removed and then replaced with one new pole, which could be shorter in height than the existing poles due to the proposed placement which is near the building?

A. Existing flag poles are to be removed and scrapped (by the vendor).

Replace it with one (1) aluminum flagpole suitable for use in most wind conditions, flying maximum size or multiple flags. It will need to be able to fly 2 flags.

Exposed Height 30' Base Diameter 5.00 Wall Thickness 0.188" with Satin Finish..

- \*External nylon braided halyard
- \*Spun Aluminum Ball
- \*Revolving Truck Assembly
- \*Spun aluminum collar
- \*Ground sleeve for lightning protection
- \*4 snap hooks
- \*Cast aluminum cleat

Exact location near building will be determined.
