REQUEST FOR LETTERS OF INTEREST/TECHNICAL PROPOSALS

Letters of Interest / Technical Proposals (LOI/TECH) are hereby solicited by the State of Rhode Island's Department of Administration's Division of Purchases on behalf of the Rhode Island Department of Transportation (RIDOT) to acquire professional engineering services for:

<p>RFP 7551030</p> <p>2017 ON-CALL STC TRAFFIC DESIGN SERVICES: To Provide Traffic Engineering Services Relative to Geometric Improvements and Traffic Signal Design on Behalf of the RIDOT Office of Traffic Safety and the State Traffic Commission (STC)</p> <p>(2 CONTRACTS ANTICIPATED)</p> <p>DBE GOAL: 10 % EACH CONTRACT</p>
--

BACKGROUND: Under RIGL 31-13-1, there exists a State Traffic Commission (STC), comprised of multiple State, Federal and Public Officials, created for the purpose of establishing a uniform system of traffic control signals, devices, signs and markings for use on public highways. The STC must convene a minimum of once per month and RIDOT must provide all staffing services and accommodations as required by the STC. In an effort to provide the traffic design services needed, RIDOT has continually acquired outside consultant services to individually study and design potential signal requests for RIDOT in response to the STC findings for traffic safety improvements.

SCOPE OF SERVICES: Upon request by RIDOT, under the direction of the RIDOT Office of Traffic Safety, the selected Consultant's services will include but will not be limited to: the preparation of contract plans and specifications at locations requested by the STC, and to either perform or procure the services of a qualified Consultant to perform traffic signal plans for proposed and existing signal systems, including the capacity analysis required to determine appropriate signal operation; to complete signing and striping plans; to complete maintenance and protection of traffic plans; to identify and locate existing utilities and coordinate with utility companies; to complete soil borings, sampling, or testing; to complete property, topographic, or highway baseline surveys; to complete wetland flagging and permit applications; to complete ROW plans, plats, SD lists, and descriptions; to complete historic documentation i.e. Section 106 and 4f; to complete archaeological research, exploration and reporting; to test, identify and locate hazardous waste sites or material; to complete engineering estimates, specifications, DOQ, and contract disks necessary for advertising; to complete review and approval of shop drawings during construction for any equipment in the contract that requires shop drawing submittals.

When it becomes necessary to supplement the design data provided by RIDOT, the selected Consultant may also be required to complete traffic counts, complete speed studies, complete accident analysis and complete delay studies as directed by the RIDOT Office of Traffic Safety.

Respondents must demonstrate **a minimum of FIVE (5) YEARS traffic engineering experience** and possess a working knowledge of all State and Federal transportation laws as well as RIDOT'S design and construction policies, procedures and standard specifications. As stated herein, in accordance with RI General Laws, the selected firm must maintain the required registration in the State of Rhode Island as a Professional Engineer for the defined contract term.

MAXIMUM CONTRACT TERM/ VALUE: To maintain the intent of the BROOKS ACT (40 U.S.C.1101-1104) in promoting open competition and selection, for on-call (indefinite delivery/ indefinite quantity [IDIQ] type contracting, a maximum length of contract and maximum dollar amount of contract must be defined within the solicitation and contract provisions. Specifically, as defined under Proposed Rules cited under 23 CFR Parts 172.9(3) (i) (ii) published in the Federal Register dated September 4, 2012, any on-call solicitation (1) shall not exceed a maximum contract term of FIVE (5) YEARS, including the number and period of any allowable contract extensions; and 2) shall specify a maximum total contract amount which may be awarded under said contract. Should additional services be required after an established threshold has been met, the project shall then be re-solicited to

select the most qualified firm(s) for the extended services needed.

Accordingly, under this solicitation for on-call services, RIDOT anticipates the award of TWO (2) CONTRACTS with each contract awarded assigned a completion date of **THREE (3) YEARS** after the date of authorization to commence work. The initial award amount for each contract awarded will be **\$500,000.00** for services performed under the defined contract term. Should the State, after expenditure of this sum, find further need for the Consultant's services, such services may be extended annually for an additional TWO (2) YEARS pending funding availability and consultant performance. Therefore in accordance with the established federal regulation; the maximum 5 YEAR term for each contract may not exceed a maximum dollar amount \$1,500,000.00.

NEGOTIATION / FIXED FEE: "Post" contract award, RIDOT will assign specific location sites to each selected Consultant; at that time the Consultant will negotiate proposed hours and fees for services requested with the RIDOT Office of Traffic Safety, which, pending acceptance by RIDOT, the final negotiated fees will "draw down" off of the initial contract amount. Negotiated salary costs must be in line with RIDOT salary caps and approved Indirect Cost Rates as documented in the accepted FINAL FEE PROPOSAL. **Eligible negotiated costs cannot exceed an additional 10% FIXED FEE.** All other project expenditures must conform to current RIDOT policies and accepted procedures.

PRE-AWARD REVIEW: The selected Consultants along with their applicable sub-consultants must undergo a pre-award review to be performed by the RIDOT External Audit Section. For information regarding all documents required for INDIRECT COST RATE submissions, the **RIDOT AUDIT HANDBOOK** can be found on the RIDOT website @ www.dot.ri.gov listed under the "Contractors and Consultants" link.
