**Frequently asked Questions:**

Question: Please explain the "Quantities" listed in reference to the RIC bid for Pest Control Services?

**Response:** The Quantities listed is based on the estimated number of applications per year for each service/type of treatment.

Question: In section 1- General Pest Control, Are you looking for an on call service for all these buildings? Or are you looking for a weekly, bi-weekly, monthly, quarterly, etc. for each building?

**Response:** On an as needed basis.

Question: In section 2- Rodent Control, Are you looking for all the buildings to have rodent bait stations?

**Response:** No, on an as needed basis.

Question: Regarding the bed bug treatments. The documents state that the University wants the Verifi Detectors used as a first response... does that mean that you want them installed on every bed in the housing complex or that you want them installed in the suspected room when there beg bug complaint? Additionally are you then wanting a separate price for treating the bed bugs (either by chemical or heat) or are you wanting 1 price to encompass everything? The concern would be paying 1 price for the detector and the treatment and not actually needing the treatment in some of the occurrences.

**Response:** Response: Verifi detectors would be placed in rooms when there is a bed bug complaint. Rhode Island College wants an application price for the conventional method only. Not all complaints will be actual bed bug infestations.

Question: The termite treatment: termite treatment is typically done per linear foot since the size of the treatment area could greatly vary. Is it acceptable to quote the price per linear foot?

**Response:** Response: No, per application required. This service is called on an as needed basis.
