The Rhode Island Department of Administration/Division of Purchases, on behalf of the Rhode Island Department of Environmental Management (“DEM”)], is soliciting proposals from qualified firms to provide all labor, skill, supervision, tools, construction plans, equipment, and materials, and perform all operations to properly remove and dispose of a sunken barge and crane in Providence River to the complete satisfaction of DEM in accordance with the terms of this Request for Proposals (“RFP”) and the State’s General Conditions of Purchase, which may be obtained at the Division of Purchases’ website at www.ridop.ri.gov.

The initial contract period will begin on the date of Purchase Order issuance. Final completion shall be 180 working days from the date of Purchase Order issuance.

SECTION 2: BACKGROUND

In October of 2017, a steel hulled barge with mounted crane sank in Providence River approximately 500 feet offshore of property at 170 Allens Avenue in Providence and approximately 80 feet from the nearest pier. The barge and crane have remained at that location, largely undisturbed, since that time which may have resulted in sedimentation. The crane remains visible with the barge completely submerged. The barge is a steel hulled Navy “YD” crane barge, all steel construction with the approximate dimensions of 114 feet long, 45 feet wide, and is 10 feet deep. Based on the approximate dimensions it is estimated that the barge weighs approximately 150 to 200 tons. All dimensions are approximate only.

The barge has been inspected on multiple occasions by both DEM and the U.S. Coast Guard and no oil or hazardous materials were found on the vessel.

It is DEM’s intent to have the barge and crane properly removed from Providence River and disposed in accordance with the bid construction documents.

SECTION 3: SCOPE OF WORK AND REQUIREMENTS

Provide any and all labor, skill, supervision, tools, construction plans, equipment, and materials, and perform all operations to properly complete the removal and disposal of the sunken barge and crane in Providence River to the satisfaction of DEM.

General Activities / Tasks

The qualified contractor will remove the steel barge and crane using equipment to access the items from the water or from the land or pier immediately adjacent to the current barge location. DEM will assist in obtaining permission from landside property owners if the removal is proposed to be

supported from the shore. As stated above the barge is in the Providence River, approximately 500 feet offshore of 170 Allens Avenue in Providence, and approximately 80 feet from the nearest pier. The pier is owned by National Grid. If the removal option of the successful bidder requires use of the pier, DEM will work with the successful bidder to obtain the necessary access/use of pier. The load capacity of the pier is unknown, and DEM makes no representation as to the pier's load capacity. If utilizing the pier, the bidder should provide estimates of the load capacity the pier would be required to handle. Bidders are advised to visit the site and make an independent judgment as to the method to remove the barge. If intending to utilize the pier, bidders may also want to propose an alternative removal method in case the required load capacity for removal is greater than the pier's load capacity.

All proposals must include equipment and staff necessary to effectively remove the crane, barge and any associated debris from the area. The contractor will be required to obtain a Category A Assent from the Rhode Island Coastal Resources Management Council (CRMC) to remove the marine debris. Depending on the removal schedule, a State permit and a Federal permit are required to remove an osprey nest atop the crane. A State permit is required if the osprey nest is inactive, which generally will be from August 1 through March 31. A Federal permit is required if the osprey nest is active. If needed, DEM will work with the successful bidder to obtain the necessary permits. To avoid delays due to permitting, the crane must be removed first and every effort must be made to remove the crane on or before March 31, 2021.

DEM will assign an on-scene coordinator to directly oversee the project. The on-scene coordinator will be authorized to make decisions in the field.

DEM will work closely with the contractor to ensure that abandoned vessel is removed and disposed of in compliance with Rhode Island General Law 46-6 (Obstructions to Navigation), which authorizes DEM to remove abandoned vessels.

The contractor shall submit one bill at the completion of work for the project. The State may, at its sole discretion, accept and pay interim bills at clearly defined project milestones designated in the proposal.

Materials salvaged from the vessel and crane must be recycled to the maximum extent practicable at a facility confirmed by DEM to be compliant with RI environmental laws and regulations. Any revenue generated from the recycling of the steel and other material must be separately documented and credited to the State of Rhode Island in the final billing for the project

- 2) Cost to remove and properly dispose of the barge and crane if accomplished from the water – if it's possible for the Vendor to do so
- 3) Cost to remove and properly dispose of the barge and crane if accomplished from the land – if it's possible for the Vendor to do so
- 4) Cost to remove and properly dispose of the barge and crane if accomplished using the water and land access – if it's possible for the Vendor to do so
- 5) Estimated recycled/salvage value of the barge and crane

C. ISBE Proposal

See Appendix A for information and the MBE, WBE and/or Disability Business Enterprise Participation Plan form(s). Vendors are required to complete, sign and submit these form(s) with their overall proposal in a sealed envelope. Please complete separate form(s) for each MBE, WBE and/or Disability Business Enterprise subcontractor to be utilized on the solicitation.

SECTION 5: EVALUATION AND SELECTION

Proposals shall be reviewed by a technical evaluation committee (“TEC”) comprised of staff from State agencies. The TEC first shall consider technical proposals.

Technical proposals must receive a minimum of 60 (85.7%) out of a maximum of 70 points to advance to the cost evaluation phase. Technical proposals scoring less than 60 points shall not have the accompanying cost or ISBE participation proposals opened or evaluated; such proposals shall not receive further consideration.

Technical proposals scoring 60 points or higher shall have the cost proposals evaluated and assigned up to a maximum of 30 points bringing the total potential evaluation score to 100 points. As total possible evaluation points are determined, vendor ISBE proposals shall be evaluated and assigned up to 6 bonus points for ISBE participation.

The Division of Purchases reserves the right to select the vendor(s) or firm(s) (“vendor”) that it deems to be most qualified to provide the goods and/or services as specified herein; and, conversely, reserves the right to cancel the solicitation in its entirety in its sole discretion.

Proposals shall be reviewed and scored based upon the following criteria:

Criteria	Possible Points
Staff Qualifications	20 Points
Capability, Capacity, and Qualifications of the Vendor	20 Points
Work Plan	20 Points
Schedule	10 Points
Total Possible Technical Points	70 Points
Cost proposal*	30 Points
Total Possible Evaluation Points	100 Points
ISBE Participation**	6 Bonus Points

Total Possible Points	106 Points
------------------------------	-------------------

***Cost Proposal Evaluation:**

The vendor with the lowest cost proposal shall receive one hundred percent (100%) of the available points for cost. All other vendors shall be awarded cost points based upon the following formula:

$$(\text{lowest cost proposal} / \text{vendor's cost proposal}) \times \text{available points}$$

For example: If the vendor with the lowest cost proposal (Vendor A) bids \$65,000 and Vendor B bids \$100,000 for monthly costs and service fees and the total points available are thirty (30), Vendor B's cost points are calculated as follows:

$$\$65,000 / \$100,000 \times 30 = 19.5$$

****ISBE Participation Evaluation:**

A. Calculation of ISBE Participation Rate

1. ISBE Participation Rate for Non-ISBE Vendors. The ISBE participation rate for non-ISBE vendors shall be expressed as a percentage and shall be calculated by dividing the amount of non-ISBE vendor's total contract price that will be subcontracted to ISBEs by the non-ISBE vendor's total contract price. For example, if the non-ISBE's total contract price is \$100,000.00 and it subcontracts a total of \$12,000.00 to ISBEs, the non-ISBE's ISBE participation rate would be 12%.
2. ISBE Participation Rate for ISBE Vendors. The ISBE participation rate for ISBE vendors shall be expressed as a percentage and shall be calculated by dividing the amount of the ISBE vendor's total contract price that will be subcontracted to ISBEs and the amount that will be self-performed by the ISBE vendor by the ISBE vendor's total contract price. For example if the ISBE vendor's total contract price is \$100,000.00 and it subcontracts a total of \$12,000.00 to ISBEs and will perform a total of \$8,000.00 of the work itself, the ISBE vendor's ISBE participation rate would be 20%.

B. Points for ISBE Participation Rate:

The vendor with the highest ISBE participation rate shall receive the maximum ISBE participation points. All other vendors shall receive ISBE participation points by applying the following formula:

$$(\text{Vendor's ISBE participation rate} \div \text{Highest ISBE participation rate}) \times \text{Maximum ISBE participation points}$$

For example, assuming the weight given by the RFP to ISBE participation is 6 points, if Vendor A has the highest ISBE participation rate at 20% and Vendor B's ISBE participation rate is 12%, Vendor A will receive the maximum 6 points and Vendor B will receive $(12\% \div 20\%) \times 6$ which equals 3.6 points.

General Evaluation:

Points shall be assigned based on the vendor's clear demonstration of the ability to provide the requested goods and/or services. Vendors may be required to submit additional written information or be asked to make an oral presentation before the TEC to clarify statements made in the proposal.

A. Proposer's ISBE Responsibilities (from 150-RICR-90-10-1.7.E)

1. Proposal of ISBE Participation Rate. Unless otherwise indicated in the RFP, a Proposer must submit its proposed ISBE Participation Rate in a sealed envelope or via sealed electronic submission at the time it submits its proposed total contract price. The Proposer shall be responsible for completing and submitting all standard forms adopted pursuant to 105-RICR-90-10-1.9 and submitting all substantiating documentation as reasonably requested by either the Using Agency's MBE/WBE Coordinator, Division, ODEO, or Governor's Commission on Disabilities including but not limited to the names and contact information of all proposed subcontractors and the dollar amounts that correspond with each proposed subcontract.
2. Failure to Submit ISBE Participation Rate. Any Proposer that fails to submit a proposed ISBE Participation Rate or any requested substantiating documentation in a timely manner shall receive zero (0) ISBE participation points.
3. Execution of Proposed ISBE Participation Rate. Proposers shall be evaluated and scored based on the amounts and rates submitted in their proposals. If awarded the contract, Proposers shall be required to achieve their proposed ISBE Participation Rates. During the life of the contract, the Proposer shall be responsible for submitting all substantiating documentation as reasonably requested by the Using Agency's MBE/WBE Coordinator, Division, ODEO, or Governor's Commission on Disabilities including but not limited to copies of purchase orders, subcontracts, and cancelled checks.
4. Change Orders. If during the life of the contract, a change order is issued by the Division, the Proposer shall notify the ODEO of the change as soon as reasonably possible. Proposers are required to achieve their proposed ISBE Participation Rates on any change order amounts.
