Rhode Island College

Furnish and install carpet in Amos Lecture Hall, Clark Science 125, approximately 250 square yards

Furnish and install new carpet:

Type: Class I med. Traffic
Color: To be determined by the College.
Construction: Tufted Textured Loop.
Fiber: Nylon.
Gauge: 1/10
Stitches: 10
Production Yarn Weight: 26ozs. / Yd2.
Finished Pile Thickness: .138 inches.
Average Density: 6872 Ozs. /yd3
Weight Density: 176,332.
Dye Method: Solution dyed.
Secondary Backing: Polypropylene.
Warranty: 10-year commercial limited warranty.

Apply cement direct without attached cushion using "environmentally safe" solvent free adhesive. In addition, install new 4" vinyl cove base, Black, and transitional trim as appropriate. The general conditions of Carpet Installation shall comply with RI State Purchasing dated 6-8-99.

The present carpet and wall base is to be removed and disposed of by the vendor. The concrete floor surface must be leveled and smoothed before the installation of new carpet. The vendor is responsible for exact measurements and shall remove all debris related to the project from College property. The scheduling of the work must be coordinated with Mr. Frank A. Montanaro (401-456-8262), and must be conducted at a time when it will create the least amount of disruption to the College activities.

STATE OF RHODE ISLAND
DEPARTMENT OF ADMINISTRATION
ONE CAPITOL HILL
PROVIDENCE, RI 02908

SPECIFICATION NO. 4315 CARPET, RUG AND CARPET CUSHION

Date: 6/8/99 Supersedes: 9/25/98

AUTHORITY: This specification covers the procurement of carpet as described herein until revised or rescinded by the Standards Committee

1. CLASSIFICATION AND SCOPE: This specification establishes requirements for tufted nylon carpet and carpet cushion. References used in this specification are intended to denote general styles, coloration's surface effects, patterns, construction techniques and quality of materials not individually specified for each item.

2. APPLICABLE SPECIFICATION: The following specification form an integral part of this standard. They shall be of the latest issue and accompany the bid proposal where required.

DOC-FF-1-70 Standard for the Surface Flammability of Carpets and Rugs.

Copies of DOC Standards may be obtained from the Federal Specifications and Standards, Federal Trade Commission, Pennsylvania at 6th. Street, N.W., Washington, DC 20580.

AATCC-134 Electrostatic Propensity of Carpets

Copies of AATCC Standards may be obtained from the American Association of Textile chemists and Colorists, 1 Davis Drive, P.O. Box 12215, Research Triangle Park, NC 22709.

ASTM-E-84 Standard Test Method for Surface Burning Characteristics of Building Materials.
ASTM-E-648 Standard Test Method for Critical Radiant Flux of Floor covering Systems using a Radiant Heat Energy Source.

Copies of ASTM Standards may be obtained from the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103.

NFPA-101 Life Safety Code; latest issue to include State of Rhode Island Fire Safety Code Commission.
NFPA-253 Standard Method of Test for Critical Radiant Flux of Floor Covering Systems using a Radiant Heat Energy Source, Class I
NFPA-255 Standard Method of Test of Surface Burning Characteristics of Building Materials.

Copies of NFPA Standards may be obtained from the National Fire Protection Association, Batterymarch Park, Quincy, MA 02269

SS-W-40 Wall Base: Rubber and Vinyl Plastic

Copies of Federal Specifications may be obtained from the Superintendent of documents, U.S. Government Printing Office, Washington, DC 20402.

Wall base, rubber and vinyl plastic for use with carpet, rug and carpet cushion outlined in this specification shall meet the Requirements of Federal Specification SS-W-40, of latest issue.

Carpet, Rug and Carpet Cushion and Wall Base Rubber and Vinyl Plastic outlined in this specification shall meet all Requirements of the State of RI, Fire Safety Code Commission.

State Regulations may be obtained from the above mentioned department at 1270 Mineral Spring Avenue, North Providence, RI

Carpet Maintenance Guide – with each installation a complete carpet maintenance guide and/or instruction manual to include Proper care shall be supplied.

3. GENERAL REQUIREMENTS:

- 3.1 Carpet, Rug and Carpet Cushion: Furnished under this specification shall be the manufacturers current standard product. The manufacturer shall be obligated to provide a product that is free of all defects and/or imperfections that affect appearance, service and normal life. It is the responsibility of the manufacturer to insure that the overall quality of all deliveries of product exhibit the same style, design, brand identity, materials, integrity and construction characteristics as originally reviewed prior to contract award.
- 3.2 Material: Pile yarn shall be 100% CFN Nylon Carpet Type Yarn. The nylon shall exhibit soil hiding (anti-microbial when specified in bid request. And static control characteristics of advanced generation nylons, (ie Antron, Anso, Camalon SD, Zeftron or other approved equals), for the useful life of the carpet.
- 3.3 Backing: This is the material that forms the back of the carpet, regardless of the type of construction.
- 3.4 Primary Backing: Shall consist of Polypropylene weighing not less than 3.0 oz./sq. yard.
- 3.4.1 Secondary Backing: Shall consist of woven or non-woven synthetics laminated to the primary back weighing not less than 3.5 oz./sq. yard with a minimum resistance to delamination of 2.5 PSI when tested in accordance with ASTM-D-3936. Types of optional secondary backings are as follows.

- Type I – Action Back or equal
- Type II – Unitary Backing (Tufloc or equal)
- Type III – Enhancer II Plus or equal

- 3.5 Binding: Carpet edge shall have a cloth strip, tape or equal affixed in accordance with standard industry practice. Strip, tape or equal color shall be of an acceptable commercial match with a color variation that is barely detectable to the naked eye.

4.0 PHYSICAL REQUIREMENTS:

- 4.1 The finished carpet, rug and carpet cushion shall conform to the physical requirements specified in Table I. Carpet shall be tufted level loop or tufted textured loop pile as specified in bid proposal.

TABLE I

FACE YARN: Antron, Anso, Camalon, Ultron, Zeftron or other approved equals with Anti-Static, Anti-Microbial and/or Built in soil hiding features.

Type 100% CFN Tufted

PILE	TUFTED LEVEL LOOP	TUFTED TEXTURED LOOP
Face Weight: Ounces per square yard, Minimum	26/28	26/28
Tuft Bind Minimum Lb. Average		
Tackless Type I	12,12	12/12
Direct Glue, Type II & III	20,20	20,20
Tackless Type II & III	10,10	10,10

Carpet Cushion Requirements (if applicable)

#1- Carpet Cushion (Synthetic)

Carpet cushion consisting of hair, jute and synthetic fiber shall be first quality, selected, cleaned, washed and permanently mothproofed. Carpet cushion shall meet the requirements of the State Fire Code Commission, National Fire Protection Association 101 Life Safety code. Section 6-5.2 Interior finish classification, Section 6-5.2.1 Class A Interior Finish, Flame Spread 0-25. Smoke Development 0-450 (NFPA) 255 or ASTM E-84 latest issue.

Minimum Weight (Ounces) per square yard – 40
 Minimum thickness – 3/8"

#2 Omalon 350 – Urethane Foam

Color: Yellow – Density: 2.3 – Must meet all Fire Codes as noted above.

Minimum Weight (Ounces) per square yard – 40 Minimum thickness – 3/8"

Date: 6/8/99

5.2 Direct Glue Down: this is the recommended method for laying carpet in large areas where heavy wheeled traffic is anticipated.

5.2.1 Tackless: Carpet installed properly by the tackless method will offer effective resiliency, resistance to wear, crushing of pile, acoustical insulation and easy removal for replacement. The use of good commercial tack strips is recommended for tacking installations.

5.3 Seams: All seams shall be made as recommended by the manufacturer and as specified in the requirements of this Standard. When possible the number of pieces of carpet shall be held to a minimum necessary to complete the work as specified. Where possible, the widest piece available from the manufacturer shall be used. Seams shall not be allowed where it is possible to cover an area with one piece of material. Where the carpet meets a hard surface floor covering, a metal rubber or vinyl molding is used to reduce hazards of tripping, to conceal the Carpet edge from water and wax.

5.3.1 Latex and Tape Seams: Good quality tape and latex as recommended by the carpet manufacturer shall be used. All seam edges shall be trimmed and sealed properly following the directions of the latex manufacturer.

5.3.2 Heat Sealing: When using an iron a heat shield is recommended. Carpet edges shall be sealed prior to starting. Regardless of seaming method used, all edges along seam must be sealed to prevent face yarn unraveling. Where carpet is laid wall to wall all necessary cuts shall be done on the job. All cuts under doors shall be made in a way that cut edges lay at mid-point of thickness of doors when they are in a closed position. Upon successful completion of the installation all dirt, dust, and debris shall be removed from the building and premises. Carpeting shall receive a final cleaning in order to remove all soil, spots and stains including a sweep with a vacuum cleaner. The contractor shall remove all scraps from the work site.

The contractor is obligated to contact the State, prior to the removal, in order to afford the agency the opportunity to retain any and/or all pieces require for future repairs. The State Agencies shall be responsible for clearing designated work areas of all furniture, unless otherwise Specified in the Bid Proposal.

6.0 INSPECTION: Carpet, rug, and carpet cushion is subject to inspection. The State reserves the right to sample any and all deliveries to its agency. State reserves the right to cut sample(s) from shipments for testing for compliance of Specification and comparison to bid sample(s). Sample mayb subject to independent laboratory testing. Cost of all testing shall be borne by the bidder. Rejection of the sample(s) may be grounds for rejection of entire quantity.

6.1 Samples: Bidders shall submit, where required, up to date carpet sample books containing product they propose to furnish. Carpet sample books (Architectural Folder), shall contain necessary information as specified in bid proposal. Carpet sample books when requested, should accompany bid proposal prior to opening date, marked to the attention of the Buyer of this commodity.

7.0 COMPLIANCE: If a bidder takes exception to any conditions or requirements listed in this specification, the execution(s) shall be so noted in wri in detail. If no exception(s) or deviation(s) are listed as required, then products shall be supplied exactly as described herein.

* All bidders shall be required to submit a **CERTIFICATION OF COMPLIANCE** from the Manufacturer with their bid proposal unless it has been previously submitted and is on file at the Division of Purchases.

8. WARRANTY: The contractor shall warrant that all carpet supplied under this Standard Specification be new, of good material and workmanship and shall agree to replace promptly any and all part(s) which due to defective material and/or workmanship fail under normal use, free from negligence or accident, for a minimum period of twelve (12) months from the date of installation.

The contractor shall warrant the carpet installation, both direct glue down and tackless with cushion, completed according to the manufacturer's Instructions and installed by reputable competent professionals. The contractor shall be held responsible for replacement, re-installation, and any Necessary adjustments to satisfy the State and/or State Agency. The replacement, re-installation, and/or adjustment shall be completed at no Additional cost to the State of Rhode Island or its' Agencies for a period of twelve (12) months from date of installation and/or acceptance. The Carpet shall be warranted against failure to meet static protection requirements, soil hiding properties and delamination of the secondary backing. The Wear Warranty shall be a minimum of ten (10) years.
