**HOBART MODEL C44A DISHWASHER FOR
STATE of RHODE ISLAND MINIMUM SECURITY FACILITY**

Hobart Model C44A dishwasher to operate in a right to left direction. Unit length to be a minimum of 44". Unit to be convertible for low temperature or hot water final rinse application. Tank and chamber to be constructed of #16 gauge stainless steel.

Machine power wash motor to be 2 HP with stainless steel pump and impeller. Pumps to be self-draining.

Voltage to be 208-240 Volt 60 Cycle 3 phase.

Dishwasher to be provided with one-inch stainless steel steam coil. Tank water temperature controlled by solid-state thermostat with positive low water protection.

Machine to be furnished with top mounted dial thermometers mounted in a stainless steel enclosure.

Motor controls wired to a common electrical point in stainless steel control center mounted on top of the machine. Motors to have built-in thermister overload protection with manual reset.

Machine to have dual side pawl conveyor driven by 1/6 HP motor. Machine to have a minimum capacity of 203 racks per hour. Unit to be equipped with ball detent clutch system to prevent damage to conveyor and drive motor if racks should be obstructed.

Machine to have stainless steel upper and lower wash arms with computer-designed debossed anti-clog nozzles. Both wash arms to be removable for cleaning without the use of tools.

Final rinse to be automatically activated by racks in passing. Rinse agent dispenser injector and electrical interface points provided as standard. Final rinse rate to be 5.0 GPM.

Automatic fill to be standard with tank water level to be automatically maintained. Fill is interrupted whenever a door is opened.

Drain handle to be located inside tank chamber and to be

automatically closed upon lowering of inspection door.

Standard equipment to include: stainless steel front panel; stainless steel frame, feet and legs; energy saving auto-timer; removable self-flushing stainless steel strainer pans and large deep stainless steel basket removable from front of machine; door safety interlocks on all doors; pump intake screen assembly; built in integral wiring channel; vent fan control; stainless steel splash shields; plastic strip curtains throughout.

Optional equipment included shall be a # 260 steam booster, 220/60/1 phase to be located under the clean table section to the right of the dish machine and piped and wired to accuate with the operation of the dish machine and supply 180 degree final rinse water when fed with 125 dgree or higher in coming water.

Machine to have full one-year warranty on parts, labor, and mileage against manufacturer's defects.
