SPECIFICATIONS FOR MOTOR VEHICLE INSPECTION STICKERS

QUANTITY: 35,000

STICKER SIZE: 3" X 3-3/4" USEABLE. Pressure sensitive adhesive with TH VOID that is presently furnished. Printed front and back to design supplied by the M.V. Safety and Emission Control Division.

FACE OF STICKER: COLOR **BLUE** with black printing. Back to be black on silver background, stock quality suitable to accept typing or writing with ball point pen or pencil. Padded size in books 3" x 4".

Receipt 4" padded in book alternating with sticker, but not removable, stock quality 20# bond suitable for typing, ball point pen or pencil, printed black ink on front and back. Back side of receipt shall be assembled in such a manner so that when the receipt is flipped to expose the back side, it will appear so that the space provided for 'NOTES' will be nearest the binding part of the book.

Books to be made of padded stock with a jute (white) cover stapled at top and bound with imitation cloth.

Books to have 10 sets each of sticker and receipts numbered consecutively alike. Number to start F-0001- thru F-35000. No skips or errors acceptable. No overages or shortages will be accepted. Numbering Roman type 3/16" in height on face of sticker and face of receipt. The cover of each book is to be numbered with starting sticker number of each book.

Packaging – 100 books of 10 sets per carton AND BOOKS PACKED IN SEQUENTIAL ORDER. Each carton shall indicate contents.

"NO MORE THAN 5,000 STICKERS PER CASE" OUTSIDE SHIPPING BOX SHALL HAVE NO PRINTING THAT INDICATES INSPECTION STICKERS.

Department will furnish details of all printing. Sample of finished product shall be supplied for testing and approval to Mario J. Faria, Chief, Motor Vehicle Safety and Emission Control Division, 325 Melrose Street, Providence, RI 02907.

VENDOR MUST ASSURE INSIDE DELIVERY OR ORDER WILL NOT BE ACCEPTED.

All inspection certificates shall have built into them security features which will safeguard the State against counterfeiting. This shall be accomplished by incorporating into the design an "ease to recognize" feature and an iridescence security feature in each sticker. This will enable a genuine sticker to be readily determined from a counterfeit by viewing the inspection certificate from the outside of the vehicle. These visual identifiable features are non-destructive verification tests of authenticity.

The inspection certificates shall contain other anti-counterfeit security features known only to authorized personnel, which will make counterfeiting extremely difficult.

There shall also be incorporated in each certificate a security feature which will result in the mutilation of sticker if an attempt is made to illegally transfer the decal from one windshield to another. This shall be accomplished by the word "VOID" appearing prominently both in the sticker and on the windshield from which it was removed.

Mario J. Faria

200⁵ INSPECTION YEAR
INSTRUCTIONS-READ CAREFULLY

1. DO NOT MOISTEN STICKER. Apply to CLEAN, DRY WINDSHIELD.
2. DO NOT FAIL to fill out the back of the sticker.
3. USE INK when filling out the sticker & check slips.
4. Do not take this book apart.
