**Rhode Island Department of Health  
3 Capitol Hill Room 410  
Providence, RI 02908**

**SPECIFICATIONS FOR THIRTEEN (13) CUSTOM BUILT HEAVY DUTY  
DECONTAMINATION RESPONSE TRAILERS**

**INTENT OF SPECIFICATIONS:**

It shall be the intent of these specifications to cover the furnishing and delivery of thirteen (13) complete decontamination response trailers equipped as hereinafter specified. These specifications cover only the general requirements as to the type of construction and test to which the trailers shall conform, together with certain details as to design, equipment and appliances with which the successful bidder shall conform. Minor details of construction and materials, which are not otherwise specified, are left to the discretion of the contractor, who shall be solely responsible for the design and construction of all features

Bids shall only be considered from companies that have an established reputation in the field of trailer construction and have been in business for a minimum of 20 years. Further, bidder shall maintain dedicated service facilities for the repair and service of products. Evidence of such a facility shall be included in bidder proposal

Each bidder shall furnish satisfactory evidence of their ability to construct the trailers specified and shall state the location of the factory where the trailers are to be built. The bidder shall also show that the company is in position to render prompt service and to furnish replacement parts for said trailers

Each bid shall be accompanied by a set of "Contractor's Specifications" consisting of a detailed description of the trailers and equipment proposed and to which the trailers furnished under contract shall conform. These specifications shall indicate size, type, model and make of all component parts and equipment.

**QUALITY AND WORKMANSHIP**

The design of the trailers shall embody the latest approved trailer engineering practices. The workmanship shall be of the highest quality in its respective field. Special consideration shall be given to the following points: Construction shall be rugged and ample safety factors shall be provided to carry the loads specified and to meet both on and off road requirements. All steel welding shall follow American Welding Society D1.1-96 recommendations for structural steel welding. All aluminum welding shall follow American Welding Society and ANSI D1.2-96 requirements for structural welding of aluminum. Flux core arc welding to use alloy rods, type 7000, American Welding Society standards A5.20-E70I1. The manufacturer shall be required to have an American Welding Society certified welding inspector in plant during working hours to monitor weld quality.

### DELIVERY

Trailers shall be delivered on-site to thirteen (13) specified locations (list attached). Each facility receiving a trailer shall be notified in advance by telephone and email of delivery date and time. A qualified delivery engineer representing the contractor shall deliver the trailers and remain for a sufficient length of time to instruct personnel in the proper operation, care and maintenance of the equipment delivered.

### INFORMATION REQUIRED

The manufacturer shall supply at time of delivery, complete operation and maintenance manuals covering the completed trailers as delivered.

### SINGLE SOURCE MANUFACTURER

Bids shall only be accepted from a single source trailer manufacturer. The definition of single source is a manufacturer that designs and manufactures their products using an integrated approach, including the frame and body being fabricated and assembled on the bidder's premises. The warranties relative to the frame and body design (excluding component warranties such as heating and air conditioning etc ) must be from a single source manufacturer and not split between manufacturers (i.e. frame and body). The bidder shall provide evidence that they comply with this requirement.

### CONTRACT

The contract for the specified trailers shall be directly with the **State of Rhode Island** and the manufacturer. Contracts with dealers or representatives of the manufacturer will not be executed.

### DRAWINGS WITH BID PROPOSAL

A to scale drawing shall be provided with the bid. These drawings shall show the interior and exterior of the trailers from all sides.

### APPROVAL DRAWING

A drawing of the proposed trailers shall be provided for approval before construction begins. The sales representative shall also have a copy of the same drawing. The finalized and approved drawing shall become part of the contract documents. This drawing shall indicate the make and model, location of the lights, compartments, heating, air conditioning units, electrical and other major components, etc.

A "revised" approval drawing of the apparatus shall be prepared and submitted by the manufacturer to the purchaser showing any changes made to the approval drawing.

### INSPECTION TRIP

The bidder will provide one (1) factory inspection trip for two (2) members of the **Rhode Island Department of Health or designated representative**. The inspection trip will be scheduled at times mutually agreed upon between the manufacturer's representative and the customer. All costs such as travel, lodging and meals will be the responsibility of the bidder.

### **TRAINING**

The bidder will provide a training engineer. The training engineer shall instruct personnel at **each** of the thirteen (13) facilities receiving the trailers in the operation and maintenance of the trailer and associated equipment included in the trailer for a period of not less than four (4) hours per session. The training shall incorporate modern training techniques. An "as built" Power Point® presentation shall be included as part of the instruction. A copy shall be left with the Rhode Island Department of Health to use for future instruction.

### **WARRANTY**

The trailers shall be warranted to be free from defects in materials or workmanship under normal use and service. Each manufacturer shall supply, as a part of their bid package, a copy of the warranty or warranties that they propose to provide, and in no case shall it be less than three (3) years on the entire trailer system.

All other warranties, as outlined in these specifications shall be provided in writing as a part of the bid package.

Failure to provide the warranties as outlined shall be cause for rejection of the bid package.

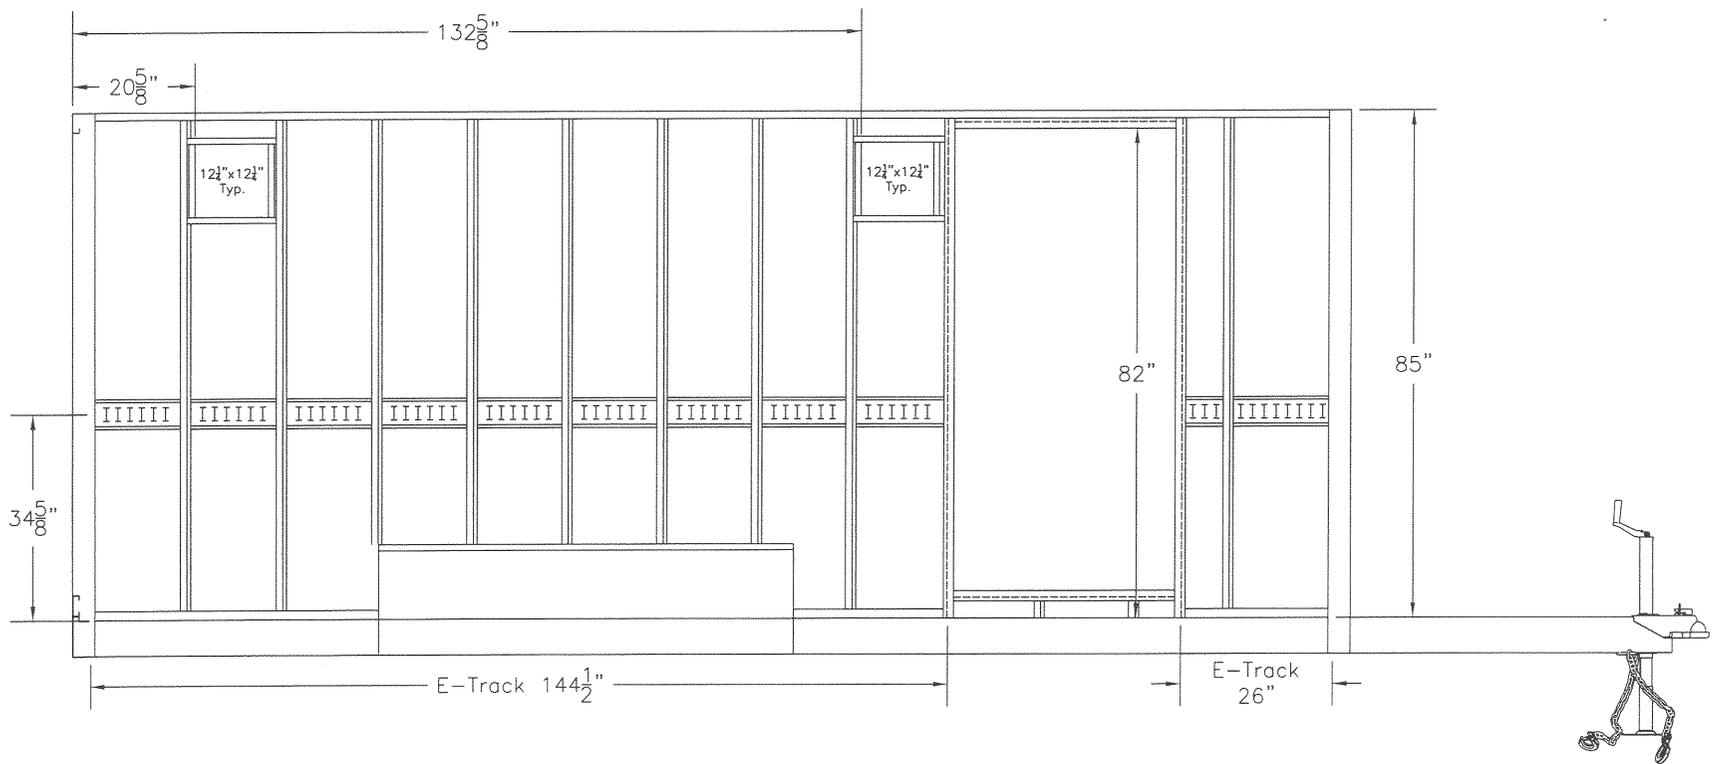

### **Detailed Bid Specifications for one (1) Decontamination Response Trailer:**

*Sample Pictures/drawings are provided to assist with bid specifications.*

Line	Quantity	Description	Yes/No
1.	1 each	18' Wide Body Trailer (98 ¼" minimum exterior body width)	
2.	1 pair	Heavy Duty Front Corner Post Jacks -3000lb static load capacity	
3.	1 pair	Heavy Duty Rear Corner Post Jacks -3000lb static load capacity	
4.	4 each	Welded Heavy Duty Forged Lashing Ring (One at each corner)	
5.	1 each	Three Piece "A" Frame (Extend "A" frame one (1) foot to accommodate a welded generator platform and high security locking cover for a small generator)	
6.	2 each	D.O.T. Compliant 5/16" Safety Chain with Clevis Safety Slip Hook and Latch	
7.	1 each	6" x 2" Rectangular Steel tube Main rails with Equal Height 'C' Section Cross Member and Outriggers.	
8.	2 each	5000lb, 102" Wide 10 Degree Up Torflex Axle with 12" x 2" Electric Brakes, E/Z Lube, and 6 on 5.5 Hubs and Drums with Weather Resistant Wiring Package	

9	4 each	ST225/75R15 Load Range 'D' Radial Tire Mounted on a Bolt Electro Deposition Coated Silver Spoke Wheel. (Include Locking Lug Nuts)	
10.	1 each	Chassis Fully Undercoated with CPC (Corrosion Preventative Compound)	
11.	18 linear feet	7' 6" Inside Height, 84 3/4" Heavy Duty (2.5") Vertical Posts on 16" Centers (Minimum 80" inside clearance height floor-to-ceiling required)	
12.	1 each	36" Wide Single Side Entry Door, Aluminum RH Hinge with High Security Anti-Rack Cam Lock. Door Opening: 36" Wide x 80" High.	
13.	1 each	85 1/8" Wide x 12 1/2" Long Extruded Aluminum Ramp Extension - 2400lb Capacity.	
14.	1 each	Flip Down Aluminum Diamond Tread Plate Gap Filler for Ramp Door	
15.	1 each	Drop-in Aluminum Diamond Tread Plate Gap Filler - for space between top of ramp and interior of trailer.	
16.	18 linear feet	3/4" Exterior Grade Plywood Floor, Exterior Surface Undercoated, Interior Surface Painted Grey	
17.	18 linear feet	Foil Ray Heavy Duty Floor Insulation	
18.	6 each	5000lb Non-Swivel Type D-Ring - Flush Mounted to Floor with Steel Backing Plate (will advise location)	
19.	18 linear feet	3/8" Plywood Interior Sidewall Liner	
20.	18 linear feet	Insulate Sidewall With R-11 Fiberglass Insulation - 2.5 inch Vertical Post Included	
21.	18 linear feet	Full Width Flat Ceiling Lined with 1/4" White Vinyl Covered Plywood (Minimum 80" inside clearance height floor-to-ceiling required)	
22.	18 linear feet	7" Ceiling Insulation (Minimum 80" inside clearance height floor-to-ceiling required)	
23.	1 each	50 Amp, 120V/240 Volt 16 Circuit Service Panel with 50 Amp Main Breaker, 25 ft Shoreline, and Locking Cable Hatch (will advise location)	
24.	3 each	Four foot Double Tube Heavy Duty Fluorescent Light Fixture with Diffuser and Cold Weather Zero Degree Ballast (Minimum 80" inside clearance height floor-to-ceiling required)	
25.	1 each	Interior Wall Switch for 120 Volt Electric (Controls Interior Ceiling Lights. (will advise location)	
26.	4 each	500 Watt Recessed Quartz Flood Light (will advise location)	
27.	1 each	Interior Wall Switch for 120 Volt 20 Amp Electric - Control for all four exterior flood lights	

28.	1 each	120 Volt, 15000 BTU Roof Mounted Air conditioner with Thermostat Controlled °F (see attached manufacturer specifications)	
29.	5 each	120Volt=8.3 Amps and 240Volt=4.2 Amps Recessed Equally Spaced Ceiling Mounted Heaters with Wall Mounted Thermostat Controlled °F (see attached manufacturer specifications)	
30.	18 linear feet	.030 Pre-finished White Smooth Exterior Aluminum Installed Vertically with Non-Corrosive Mechanical Fasteners	
31.	1 each	24" High Aluminum Tread Plate Stone Guard with Wrapped Integrated Corners	
32.	2 each	L.E.D. Wraparound Tail Light with Integrated Side Rear Marker Lights L.E.D DOT Safety Package and Clearance Lights	
33.	2 each	Flow-Thru Sidewall Vent	
34.	1 each	L.E.D Safety Package and Clearance Lights, High Profile Brake Light on Rear of Trailer and Side Mounted Clearance Lights used as Turn Indicators	
35.	1 each	S.A.E. Color Coded 12 Volt Electrical System, D.O.T. Required Exterior Lighting Package	
36.	1 each	D.O.T. 'A' Frame Mounted 22 Amp Hour UI Series Battery, Breakaway Switch, Aluminum Mounting Bracket, cover, Battery "Charge" Indicator, and Diode Isolation.	
37.	1 each	Seven Way Trailer End connector	
38.	4 each	6 Bolt Chrome ABS Hub cover with Liner	
39.	1 each	Heavy Duty Trailer Receiver for 2 5/16" Coupler	
40.	1 each	High Security Lock for 2 5/16" Coupler	
41.	3 each	High Security Pad Locks for Doors	
42.	2 each	Heavy Duty Roof Mounted 110 Volt Power Exhaust Fan Ceiling Vents	
43.	2 each	High Security Roof Mounted Ceiling Vent Covers – Cap on Roof Vents to be of Solid Construction	
44.	1 each	Wall Mounted Switch for Ceiling Exhaust Vents with 6 Hour Timer

# DUO-THERM® BRISK AIR ROOFTOP AIR CONDITIONER

Nothing compares with the Duo-Therm Brisk Air. Its reliability, economical price, efficient performance and long life make this air conditioner the first choice of more than a million RVers today.

#### Designed for Performance

The contoured shroud reduces drag and helps keep the unit operating at peak efficiency. Made from high-impact materials, the cover protects the unit from obstacles and the elements. Models fit rooftop or ducted installation. The three-speed blower provides great cooling flexibility. Or for ducted installations, a model with a two-speed blower accommodates analog thermostats.

#### Easy Installation

The unit installs in a standard 14-inch vent opening and can fit in most roof thicknesses.
