Answers to questions:

1. Q. Can you please clarify what TCN is in the analysis below? It is in the pricing sheet.
A. TCN stands for total cyanide and is included on the bid spreadsheet.
2. Q. TestAmerica is located outside of the 55 mile radius specified in the RFP qualifying our laboratory to submit a bid response. However, we do perform PFAS testing. According to the verbiage in the RFP “The exception to this requirement is when a lab is able to provide services not provided by other laboratories such as new emerging contaminants (PFAS)”, and so we would like to provide pricing for the PFAS component of the bid. Are there other constituents in the bid that you classify as “emerging contaminants” and we could provide pricing for? If so, we will include this pricing in our bid response.
A. You can provide a bid response to any lines you want to include.
3. Q. Can TestAmerica provide a bid response for PFAS testing only?
A. Yes
