2.	<p>Question: It was asked if dealers are able to submit more than one substitution for furniture pieces that have been identified with "Or Equal" submissions? How will they be evaluated?</p> <p>Answer: If identified with an "or Equal", Dealers are allowed to submit either on the basis of design or provide one (1) "Or Equal" substitution per item code during the bidding process. Multiple "Or Equal" requests may be evaluated and approved during the substitution process, but final submission of bid allows submission on only (1) one item per code. Onus is on the dealers to show that the submitted product is a true equal and complies with the criteria set by the basis of design. The project specifications outline the submission requirements for evaluation of "or Equal" submissions. If the proper documentation is not submitted for evaluation, then the item will not be reviewed for further consideration.</p>
3.	<p>Question: Dealers asked if Mock-ups would need to be provided if they were specifying the product in the Basis of Design?</p> <p>Answer: Unless indicated by the project specifications or requested by the University, No mockup is necessary. Mock-ups will be required for faculty offices as well as task chairs.</p>
