# Office of Management and Budget Grants Management Office

Authorized under Rhode Island General Laws, the Office of Grants Management leverages and enhances federal funding, including grants, contracts, and loans, in support of the Governor's strategic agenda fostering meaningful results, programmatic accountability, fiscal integrity, and transparency.

# Rhode Island Grant Management

## **2017 Schedule of Expenditures of Federal Awards (Single Audit)**

- \$4.9 billion in federal expenditures
- 40% of total budget
- Private approximately \$9.8 million
- \$306 million in subawards
- 28 state agencies scheduled to participate
- 2,000+ awards
- Repetitive Single Audit Findings

# How are grants managed currently?

- State agencies use a myriad of systems and spreadsheets to track awards
  - Expenditures are recorded in RIFANS
  - Expenditure data is not at the level of detail required for federal reporting
- Two of the 28 State agencies that will use the GMS currently have a GMS. Primary focus is the distribution of funds (subawards) to external entities.
  - RI Department of Education (AccelaGrants)
  - RI State Council on the Arts (Fondant Technologies)

## State of Rhode Island

### Main Goals of New Grants Management System (GMS)

Increase the efficiency in managing programmatic and financial aspects of grants throughout the entire life-cycle

Provide statewide visibility into grants performance to support planning, analysis, and decision-making across government

### Key Business Objectives

- Increase funding through Federal/private opportunities to support State programs
- Improve customer service and access throughout sub-award life-cycle
- Demonstrate greater accountability for grant and loan funds
- Comply with State and Federal laws to reduce audit findings
- Monitor, measure, and report on the effectiveness of sub-awards
- Achieve the highest possible return on funds in terms of public benefit

# Work Completed to Date

Significant analysis of the grants management business process completed in partnership with the State Agencies resulted in:

- Standardization of the grant business processes, tools, templates, workflows, and approval paths;
- Working proof-of-concept code and infrastructure to integrate a Grants Management System to the State financial system (RIFANS);
- Approval and creation of a “Grant Award Task” flex field in RIFANS which will streamline agency grant reporting and expenditure tracking; and
- Testing of payroll allocation methodology for grant-funded staff and an automated journal entry process to record changes.

# Agile Project Methodology

The State expects its chosen vendor to be fluent in modern Agile software development methodology. A prospective vendor should elucidate:

- Its particular take on Agile and the experiences that led to it;
- The experience and (if applicable) any Agile certifications of its project staff;
- The toolkit used to track Epics/Features/User Stories, Retrospectives, groom backlogs;
- How these tools are connected into an automated Version Control, Continuous Integration/Continuous Delivery pipeline infrastructure.
