The signed Certification Cover Form must be attached to the front of the offer

Submitted Questions & Responses:

RFQ: #7598725

Addendum #1.

1. With T4i motor being spec'd does not meet the current EPA regulation per spec. EPA regulation now should be final T4.
Response: Correct T4Final
2. Pump Capacities look to be for AUX hydraulics, not machine capacity. Please confirm this is auxiliary flow for attachments.
Response: 29.1 GPM is auxiliary hydraulics for standard flow
3. Is the 114hp Net or Gross hp.
Response: Gross
4. Power attachment control kit is needed to run which attachments currently being used. If they are Bobcat from T320, this would be a 8pin Bobcat attachment control kit
Response: Multiple brand attachments will be used up to 14 pin
5. Assume Camoplast tracks, not tacks?
Response: Requiring Camoplast tracks due to reputation and durability

End.
