Questions Received

Solicitation #7598775

Fire Alarm and Sprinkler Systems Repair, Inspection, and Testing at DOT Train Stations

1. Will I be quoting the emergency stations (blue stations) at Wickford?

Answer: Yes

2. What do they mean by TRIP TEST. We have a DRIP Test in the sprinkler world but I have not heard of a TRIP TEST?

Answer: I believe the trip test is for dry systems? There may be another word for it here, which I am unaware of. I believe this is to test the system without filling the pipes with water. In historic buildings, dry systems are usually installed as to prevent possible water leaks in non-emergency situations.
