## I. Revisions to the RFQ

1. The approximate length of the SOQ should approximately 40 double sided pages. This is a guideline and doesn't include any of the required documents or forms.
2. The RIVIP must be submitted by the Joint Venture or the Lead Contractor if you are not forming a Joint Venture.
3. Table of Required forms on Page 13:  
The forms that the Lead engineering firm is required to submit were inadvertently omitted. The Lead Engineering firm is required to submit the *Lobbying, Debarment, Conflicts Disclosure, Certification for Title VI Assurance and the DBE Special Provision forms*.
4. Page 14 Section 19 (f) STATEMENT OF QUALIFICATIONS SUBMISSION REQUIREMENTS:  
  
The Lead Construction entity and Lead Design entity shall **each** list a **maximum** of 8 projects completed within the past **five** fifteen years that best illustrate each firm's qualifications most relevant to this project scope with a focus on the ability to deliver such projects on schedule and on budget. If the Design/Build entity is a Joint Venture that has teamed up on previous projects, also list those project(s)
5. Page 18 Part 3 (a) EXPERIENCE AND AVAILABILITY OF KEY PERSONNEL is revised.
  - a. **Project Director** Project Manager

## II. Questions and Answers addressed at the Pre-Proposal meeting

**Q1. What the is the level of design for Smith Street?**

A. As a result of RIDOT receiving Garvee funds, the Smith Street Bridge with plans approximate to the PS&E level will be incorporated into the BTC.

**Q2. Are eight previous projects required for each engineering and each contractor firm or is it a combined total of eight projects for the team?**

A. The Lead Construction entity and Lead Design entity shall each list a **maximum** of 8 projects.

**Q3. Do resumes count towards the 40-page guideline?**

A. No.

**Q4. Do Joint Ventures have to register with the Secretary of State at the time of submission of the Statements of Qualification (Phase 1)?**

A. No. The successful D/B entity will be required to do so prior to contract award.

**Q5. Regarding work to be performed on Route 146 over Route 95, please clarify the scope of work under this project.**

A. This bridge (Louisquisset Pike Ramp Bridge No. 703) is currently under contract for repairs and will not be included in the scope of this project.

**Q6. Who will be responsible for getting the Permits?**

A. RIDOT is currently completing the NEPA process. However, additional permitting will be the responsibility of the Design/Build team.
