**SOLICITATION 7600774
SPECIFICATIONS:**

The following specifications shall apply to the purchase of One (1) 4X4 FLAT BED, 33,000 GVWR TRUCK BODY and BED for the Department of Environmental Management. The State reserves the right to waive minor technicalities under this specification. Federal and State laws supersede any conflicting part of this specification.

The unit shall be the latest current model of standard design manufacturer complete with all standard equipment, and warranties. Bidders are to supply the latest printed literature and detailed specifications on equipment the bidder purposes to furnish. All parts utilized on the unit shall be new and unused and of which parts are stocked at one or more locations in Rhode Island and/or Southern New England region.

The unit bid must be designed, and all components selected and used according to the sound engineering principles and industry best practices. All complete units shall comply and be tested in accordance with all applicable Federal, O.S.H.A NSI, FMVSS, EPA and DOT standards and regulations. The specifications listed below shall be considered minimum requirements.

The bidder agrees, if his/her proposal is accepted, to guarantee the design, material and workmanship of the unit bid according to the standard factory warranty, or detail in the following specification, whichever is greater. Warranty coverage shall include costs of transporting the unit to and from servicing shop, when outside a 50-mile radius of the delivery point. The bidder shall be responsible for pickup and delivery (including fuel) of any unit that is found to have defects within the first three (3) weeks of delivery to DEM and have to return to dealer for repairs.

Complete specifications and literature on the unit bid shall accompany the bid. Any exceptions to these specifications shall be indicated on the bid or on a separate attachment to the bid, labeled as such.

Any exception no matter how minor must be noted on a separate sheet and be identified by section. Any "or equal" or "equivalent" items for brand specified components shall be listed with the bid package. Complete description and literature on the "or equal" components shall be supplied for consideration by DEM. The burden of proof regarding "or equal" items will be upon the vendor.

SOLICITATION –Hatchery Fish Stocking Truck Specifications Inclusive of Platform Body

General:

RIDEM, Fish and Wildlife, through its trout hatchery program provides trout for freshwater anglers who fish in our state. Over 180,000 trout are stocked statewide in 100 locations several times per year. Additionally, trout are also moved from one hatchery to another several times per year; trout and salmon are transported from out of state hatcheries as well.

Due to the high numbers and poundage of trout, distances required for travel, and perishability of the trout, a large capacity, (33,00 GCWR) tank truck is required. We are replacing a 1995 Ford L-8000 which has become unreliable. The fish stocking water tank will be of fiberglass construction; out sourced and installed separately.

Specification Overview:

This fish stocking truck shall be constructed on a new chassis and will include a custom designed bed. Specifications are listed below. Please indicate compliance with listed items, yes or no.
