

## CLEARING TEMPORARY INTERNET FILES

PLEASE NOTE: These instructions are for Internet Explorer v 8.0. If you are running another version or other software, please refer to the browser's instructions for details.

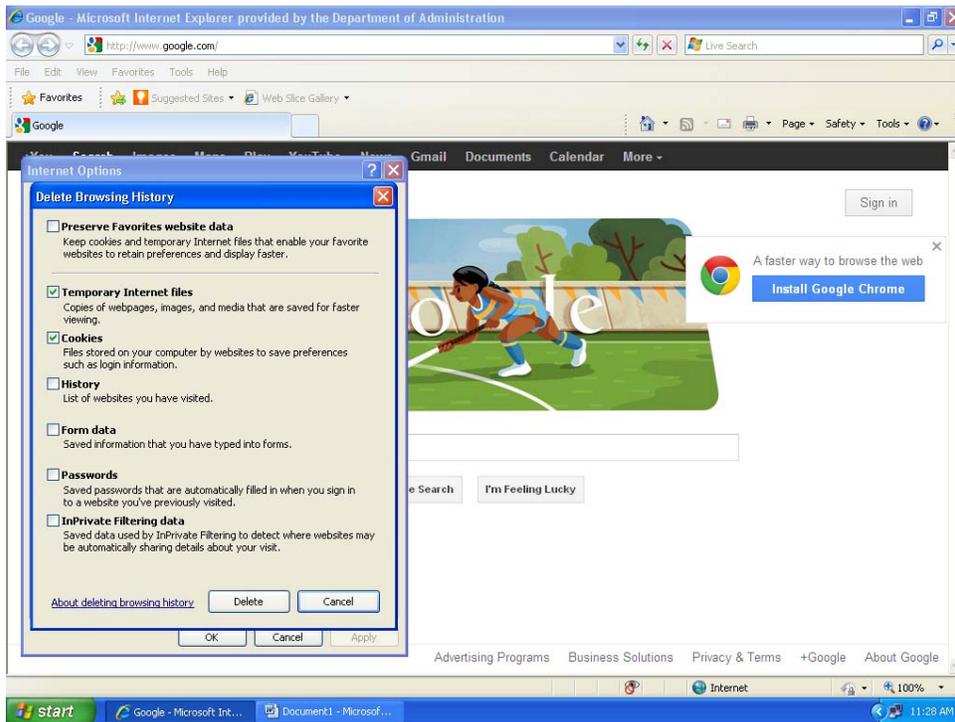

Open Internet Explorer 8.0.

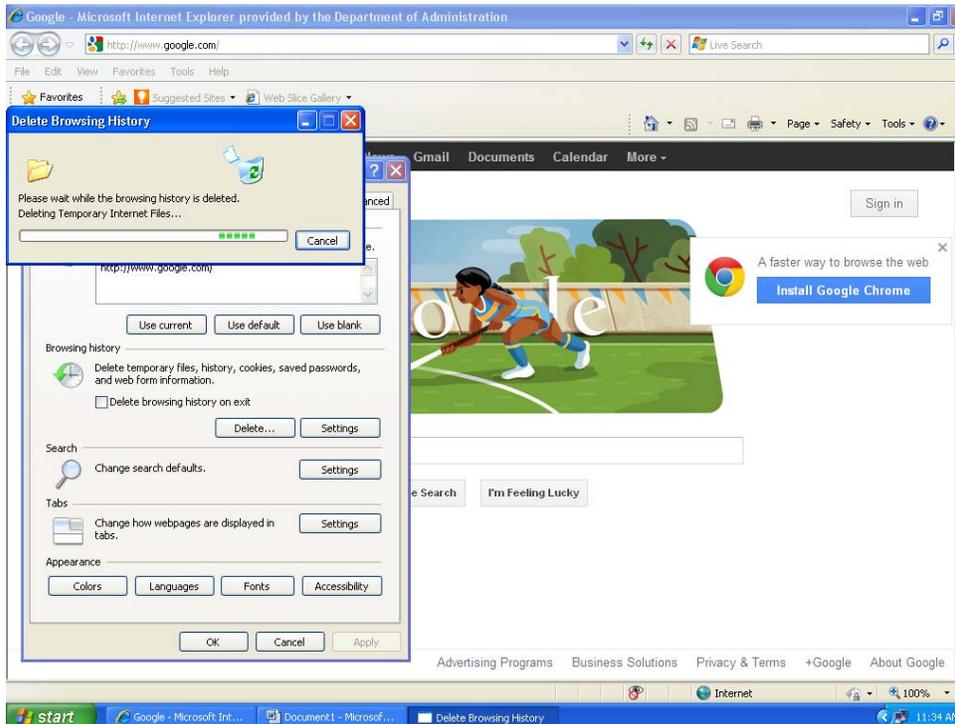

From the menu bar select Tools-Internet Options.

Under Browsing History, select Delete.

Make sure check only Temporary Internet Files and Cookies (PLEASE NOTE: deleting these settings may also clear out other stored data for unrelated websites). Leave all other options unchecked. Click Delete.

After the program is finished, click OK. Then proceed to the website.
