- 1 "Single use license" means a license must be dedicated for each computer or network access point that has use rights for the Software, Data, or Documentation. Licensee may make a second copy for Licensee's exclusive use on a portable computer so long as only one (1) copy of the Software, Data, and Documentation is in use at any one (1) time.
- 2 "Concurrent use license" means a license that permits execution of the Software on any computer on the network. The number of simultaneous/concurrent users may be controlled by a License Manager to access and use the Software, Data, or Documentation.
- 3 "Server license" means the serverside Software that resides on a per computer server basis and provides services to multiple users in a global client/server distributed computing environment.
- 4 "Organizational license" means the Software, Data, and/or Documentation may be used, reproduced, displayed, and redistributed for use by all users within the given licensed organization.
- 5 Node-locked license (UNIX only) is a dedicated license that allows the quantity of authorized network users to use the software concurrently on one (1) computer.
- 6 Extensions to Software programs follow the same scope of use as that granted for the corresponding Software programs. For example, if you order an ArcInfo extension, then that extension is also licensed for concurrent use.
- 7 Licensee may use the Software for Internet access provided that the source and object code are not accessible to users of the application, and that Licensee does not generate revenue directly by charging for access to the site or service by selling data, pay-per-view, or subscription fee, or similar means by utilization of the Software. ArcIMS Software administration tools may be copied and distributed throughout Licensee's organization, and Licensee may use ArcIMS for development on up to three (3) machines for each ArcIMS Server/CPU license. The ArcIMS license includes rights to deploy MapObjects applications on the Internet (or Intranet).
- 8 ESRI and its licensor(s) grant Licensee a nonexclusive, nontransferable, limited license to use, copy, and prepare derivative works by
 - (a) Translating "alroute.mld" (hereinafter "Dictionary") from the original text in the English language;
 - (b) Editing Geographic Data Technology (GDT) Data included within ArcLogistics Route; and
 - (c) Adding Data (owned by Licensee or others) to ArcLogistics Route Software.

The license grant is conditioned as follows:

- (a) The derivative works are for Licensee's internal use only;
- (b) ESRI and its licensor(s) retain all exclusive right, title, and interest in and benefits from the derivative works, except Data owned by Licensee or others; and
- (c) Licensee expressly waives and relinquishes any and all ownership including, but not limited to, copyright, moral rights, or any other statutory or common law claims to the derivative works, except for Data owned by Licensee or others.

Licensee shall not translate, modify, or edit in any way the software name "ArcLogistics Route," software logo, any third party software, any text other than the Dictionary, or any Data other than GDT's.

The amount of Data used by Licensee is limited by Data credits purchased. Additional license fees are required if ArcLogistics Route with Data is to be accessed by more than one (1) ArcLogistics Route license.

- 9 ArcPad SOFTWARE IS NOT LICENSED FOR NAVIGATIONAL USE.
- 10 This is a "Dual Use License," meaning the Software may be installed on a desktop computer and may be used simultaneously with either a Personal Digital Assistant (PDA) or handheld mobile computer provided that the Software is only used by a single individual at any one (1) time.
- 11 Developers shall not deploy or allow to be deployed the MO20.LIC or WEBLINK.LIC files or related updates. Developers must attribute as follows: "Portions of this computer program are owned by LizardTech, Inc., and are Copyright © 1995–1999 LizardTech, Inc., and/or the University of California. All rights reserved. U.S. Patent No. 5,710,835."
- 12 Other restrictions notwithstanding, Licensee may redistribute commercial applications to its sublicensee(s) under a written sublicense agreement that protects ESRI's rights in its Software, Data, and Documentation to the same extent as the ESRI License Agreement, and that includes the following terms, as a minimum:

TIME AND MATERIALS RATE SCHEDULE

Effective January 1, 2002

Hourly time and materials labor rates have been provided for each labor category for calendar year 2002. The hourly labor rates for services that are performed after 2002 will be escalated seven and one-half percent (7.5%) each year. Other direct costs, such as computer, travel, reproduction, subcontractor, telecommunication/freight, or materials, will be charged a material handling fee and invoiced.

ESRI reserves the right to provide fixed price quotations for professional services requests that require deliverables other than hours and/or are over twenty-five thousand dollars (\$25,000). Work performed under fixed price orders will be invoiced monthly based on percent complete.

Principal

Hourly Rate: \$248/Hour

These staff work as program directors or project advisors providing project vision, strategic consulting, and program management for all types of geographic information system (GIS) projects. These staff apply market/application domain expertise with extensive experience in GIS and related technologies to ensure the successful completion of the program. Consulting activities may include strategic planning, review and oversight of requirements definition, application and database design, and system integration consulting. Management activities may include defining program requirements, establishing budgets and schedules, allocating staff and other resources, and managing and overseeing subcontractor activities. These staff work with senior client staff and have the support of senior Environmental Systems Research Institute, Inc. (ESRI), corporate staff to ensure successful project completion.

Senior Consultant

Hourly Rate: \$188/Hour

These staff work as project managers or project advisors providing strategic consulting and program management for all types of GIS projects. These staff apply market/application domain expertise with extensive experience in GIS and related technologies to ensure the successful completion of the program. Consulting activities may include strategic planning, GIS workshops and seminars, requirements definition, application and database design and development, and system integration consulting. Management activities may include defining program requirements, establishing budgets and schedules, allocating staff and other resources, and managing and overseeing subcontractor activities. They design comprehensive work plans that employ structured systems methodologies, which define project deliverables, milestones, and realistic schedules.

Consultant

Hourly Rate: \$149/Hour

These staff provide day-to-day consulting and management of contracted projects within ESRI. They work under the guidance of senior ESRI consulting staff and support the design and implementation of defined work plans. They provide traditional consulting services and also provide design and management support to application development projects and database conversion projects. They conduct detailed requirements interviews, document application requirements, develop logical and physical database designs using computer-aided software engineering (CASE) tools and entity-relationship (E-R) diagramming methodologies, design and develop software and database quality assurance/quality control (QA/QC) programs, and provide management oversight of daily technical activities. They work with senior consulting and technical staff to design comprehensive work plans that employ structured systems methodologies, which define project deliverables, milestones, and realistic schedules. These staff also work with ESRI administrative staff to ensure that progress and financial reporting is provided according to contract requirements.

Senior Technical Designer

Hourly Rate: \$193/Hour

These staff are the senior technical staff at ESRI. They provide the overall technical vision and system architecture for large complex systems. They ensure that sound software engineering principles and life cycle methodologies are applied to projects. They are actively involved in systems architecture design, application software design, database process design, and all phases of coding including the conduct of design and code reviews. They may serve as the

principal investigator in focused studies or research and development (R&D) projects. While staff in this category have broad technical knowledge of GIS applications and related technologies, they also provide specific expertise in areas such as Internet applications, data warehousing, spatial analysis, and modeling. They are proficient in ESRI® software languages, as well as third-generation programming languages, Internet markup languages, and other technologies.

Technical Designer

Hourly Rate: \$156/Hour

GIS system/software developers design technical project plans for the implementation of application software projects and database development projects. They oversee the day-to-day technical activities of the project team and ensure that appropriate systems methodologies are employed. They design and develop QA/QC programs and oversee design and code reviews, database reviews, and other QA/QC activities throughout the project life cycle. They will perform detailed software design, detailed database conversion design, and be directly involved in the coding and implementation of the more complex and strategic portions of application software and database conversion projects. They are proficient in ESRI software languages, as well as third-generation programming languages, Internet markup languages, and other technologies.

Technical Analyst

Hourly Rate: \$122/Hour

Staff in this category work independently to perform software coding and write software documentation to design specifications developed by senior staff. They also design and implement data conversion procedures. These staff also perform software and database quality control. They are very proficient in the coding of software and processing of digital databases. They are proficient in ESRI software languages, as well as third-generation programming languages, Internet markup languages, and other technologies.

Database Analyst

Hourly Rate: \$103/Hour

These staff provide database development support in creating cartographic and digital data products. Areas of expertise include performing data conversion, migration, and translation activities utilizing advanced processing techniques in ARC/INFO® and/or ArcInfo™ software. Additionally, these staff design and implement efficient production tools and coordinate work flow with project personnel.

General Information and Disclaimers

1. The following software items and related products are offered to Licensee and its qualified agencies for use only within the United States of America, its possessions, and territories.
2. The listed prices are exclusive of shipping, handling and any applicable taxes. Delivery terms are FOB Redlands, California. Shipping and handling will be prepaid and charged back, i.e. included in the invoice as a separate item. If desired, shipping and handling charges can be quoted to the customer prior to the placement of the order. Your ESRI Sales Representative can provide a specific quote including applicable shipping and handling charges.
3. Eligible customers may at any time request a specific quote based on this contract from an ESRI sales representative. When selecting items from this contract without assistance from an ESRI sales representative, be aware of the following general rules:
 - (a) Volume pricing applies on a per-order and per-item basis unless otherwise indicated. The listed prices must be multiplied by the order quantity to determine the total price for any given order.
 - (b) Some products may have prerequisites and interdependencies so that one may not be purchased, or may not be functional, without prior or simultaneous purchase of another product. For example, software upgrades can only be licensed by customers who have already acquired the corresponding earlier version of the software, and extension software is only functional in combination with the corresponding core software. If you have questions regarding your configuration and how it relates to your requirement, please contact your ESRI representative for additional information.
 - (c) System requirements and platform support vary from item to item. If in doubt whether your system will support a desired item, please contact your ESRI sales representative for additional information.
 - (d) Some items are not offered to all potential customers. For example, certain software upgrades are only offered to customers who have acquired the most recent versions of the software.
 - (e) For installations exceeding one (1) day on-site, ESRI will add \$1,000 per day.
 - (f) Client Site Training of two (2) days or less is subject to an additional \$500 fee for instructor travel and expenses. Customer must provide adequate facilities for client site training. Certain other restrictions apply. See the Learning Center On-site training information at ESRI's Web site (www.esri.com/training/site_training.html) for details.
 - (g) ESRI Site Training (i.e. Training at one of ESRI's Training Centers) requires a completed registration application form from each student. Registrations are processed on a first-come, first-served basis. We recommend that you submit this registration information at least one month prior to the start date of your class. See the Learning Center registration information at ESRI's Web site (www.esri.com/training/register.html) for details.
4. Support services are defined at ESRI's Web site (www.esri.com) within the user support section. Particular attention should be paid to the fact that some ESRI software comes with complimentary maintenance for the first year and other software features different support plans.
5. New software releases for ArcInfo, ArcSDE, ArcGIS Concurrent Use Licenses, and other software are provided exclusively through maintenance programs. In these cases, software upgrades are not sold separately.
6. Sales of ArcStorm software are limited to existing ArcStorm customers.
7. Sales of Node Locked Licenses are limited to customers who already have Node Locked Licenses.
